AUBURN, ALABAMA

Funderburk To Head New Unit—

AU Picks Montgomery Site, Vice President

VICE PRESIDENT FOR MONTGOMERY — Dr. H. Hanly Funderburk, Jr., '53 receives a congratulatory handshake from former Gov. George C. Wallace at the Montgomery news conference where announcement was made of Funderburk's appointment as an Auburn University vice president. He will head Auburn's new four-year branch college to be built on the eastern edge of Montgomery. Others visible are AU President Harry M. Philpott (extreme left), Mrs. Funderburk, State Superintendent of Education Ernest Stone, and to the right of ex-Governor Wallace, Trustee John Overton '35. Montgomerians will provide a 500-acre site 45-minutes by car from Auburn.

Auburn University moved into a new phase of service with the announcement on Feb. 15 of the site for its Montgomery branch campus and the naming of Dr. H. Hanly Funderburk '53 vice president for Montgomery. The new four-year branch college will occupy a 500-acre campus in east Montgomery between Interstate 85 and U.S. 80 (the Atlanta Highway).

In a joint statement Auburn University President Harry M. Philpott, Governor Lurleen Wallace, with former Governor George Wallace as her representative, and Holman Head, chairman of the Montgomery Chamber of Commerce Site Committee, said the new site meets qualities needed for an Auburn branch better than any of the other 14 proposed areas. They listed the natural beauty of the site, proximity to Auburn (driving time is 45 minutes which means faculty or students would lose only one class period in travel to or from the main campus), interested ownership of adjacent land, and accessibility to downtown Montgomery as prime reasons for the university's choice.

The City of Montgomery, the County Board of Revenue, business, industry, and local citizens provided the funds for the purchase of the \$750,000 site.

In naming Dr. Funderburk as the vice president, Dr. Philpott said: "After considering a number of possibilities for this position, both inside the University and throughout the country, we are pleased that Dr. Funderburk meets the qualifications and has agreed to undertake this responsibility."

"His distinction as a teacher and researcher, his administrative ability shown in his Graduate School responsibilities, and

his devotion to serving the youth of our state make him an ideal choice for the leadership of the Montgomery branch. I am confident that he will give able direction to the development of a program of excellence."

Dr. Funderburk, presently the assistant dean of the Graduate School at Auburn, formerly taught and did research in the Department of Botany and Plant Pathology. He was one of the first six Alumni Professors named at Auburn. He assumes his new position with the Montgomery branch on March 1.

Dr. Funderburk earned both B.S. and M.S. degrees at Auburn, and he holds the Ph.D. from Louisiana State University. At Auburn he has been a member of the Auburn Research Council, the Auburn Research Foundation and the Auburn Science Development Committee.

Auburn will open the Montgomery branch in September, holding classes in the University of Alabama Extension Center on Bell Street until first buildings are completed at the new campus.

For the 1968-69 academic year, a full schedule of courses will be offered at the freshman level only. Sophomore course work will be introduced the next year with junior and senior level studies developing in the same manner until a complete four-year program leading to a bachelor's is established. Students at the Montgomery branch may eventually earn degrees in history, mathematics, English, business, and education.

More Than \$500,000 In Recent Weeks—

AU Gets Grants, Research Contracts

In recent weeks research grants and contracts to a wide range of University departments have totaled \$522,953. An additional Biomedical Science Support Grant from the National Institutes of Health supports research by four Auburn research professors. Last year the funds were used in the purchase of Auburn's first electron microscope. All the projects this year will use the electron microscope. The amount of the NIH biomedical grants depends on the volume of NIH research grants for the previous year. The faculty directing projects that received this year's grants are Dr. N. A. Negi of botany and plant pathology; Dr. E. C. Mora, of poultry science; Dr. Robert P. Schields, of pathology and parasitology; and Dr. Paul F. Parks of animal science; and Dr. Paul Latimer of physics.

Summer Institutes
The National Science Foundation Grant of \$156,680 to support four summer institute programs is the largest single grant. Dr. Howard E. Carr will direct an institute in physics for secondary school teachers. Dr. Robert K. Butz will direct a mathematics institute for secondary school teachers, and Dr. Richard Ball will direct a math institute for college teachers. Dr. Joseph T. Hood will direct a secondary school science training program

in biological and life sciences. The largest number of grants and contracts are within the School of Engineering. A \$70,000 grant from NASA at Marshall Space Flight Center will continue research in the Electrical Engineering Department directed by Dr. C. C. Carroll. An Air Force grant of \$14,500 to that department will begin investigation of possible antenna and feed configurations for use on supersonic bombs.

Aerospace Engineering has received a \$2,000 grant from the Link Foundation, a \$23,438 research contract from the Air Force for a project directed by Dr. Kenneth Harwell, and a \$13,000 grant from TRW Instruments, Inc., toward the purchase of an image converter camera system.

A \$23,518 grant from the Army Missile Command at Redstone Arsenal to the Mechanical Engineering Department will continue research directed by Dr. Wartan Jemian.

The Auburn Civil Engineering Department is beginning a two-year study on simulation of settlements of supports of full-scale continuous concrete bridges

through a \$17,030 research contract with the Alabama State Highway Department.

Civil Defense Center
Dr. Donald F. Sawyer and Dr. Gerald M. Leigh of the Department of Civil Engineering will direct the establishment of a pro-

(Continued on page 2)

Compton Heads Home Economics

On July 1, Dr. Norma H. Compton will become dean of the Auburn University School of Home Economics. Dr. Compton presently heads the Department of Clothing and

Textiles at Utah State University. Mrs. Mildred Van de Mark has been acting dean since the retirement of Mrs. Marion Spidle in 1966.

A native of Virginia, Dr. Compton holds the A.B. in psychology from George Washington University, the M.S. in clothing and textiles and the Ph.D. in human development from the University of Maryland. On the basis of her research work, she was selected as one of Utah State's most creative faculty for 1964-65. At Utah, Dr. Compton has directed the Institute for Research on Man and His Personal Environment in addition to her teaching duties. She has also served as acting dean of the Col-

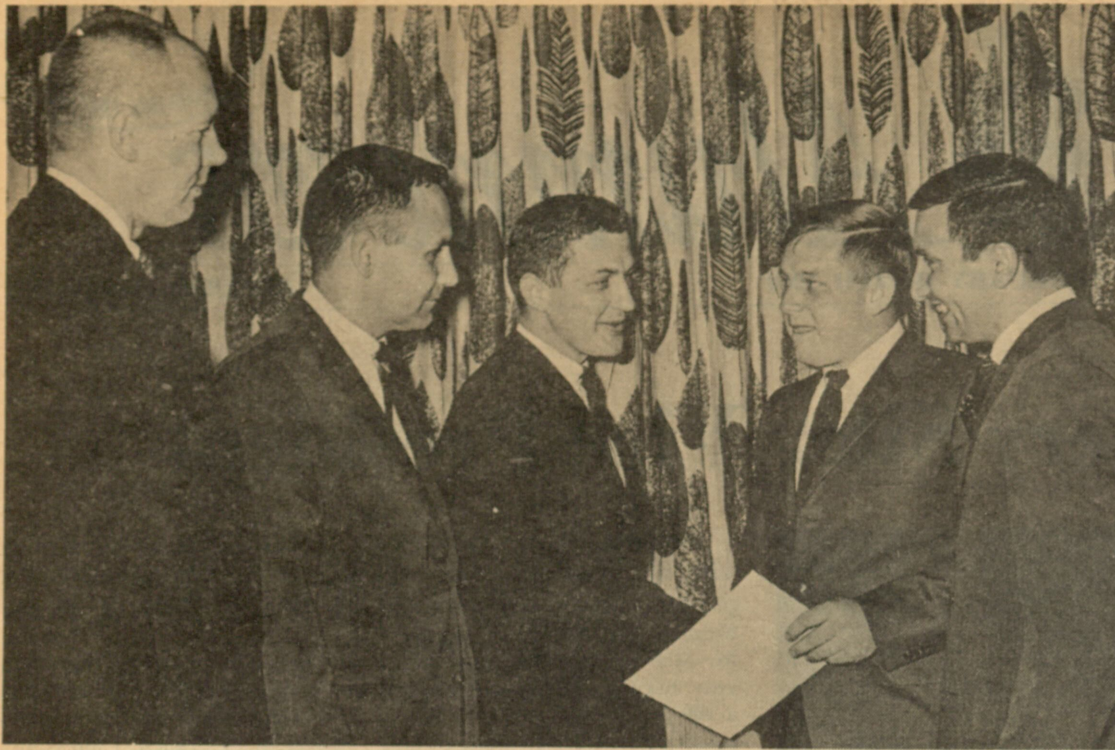

lege of Family Life.

A member of the national steering committee for College Teachers of Textiles and Clothing, Dr. Compton has served as delegate to the American Home Economics Association for both Utah and Maryland. She has published several articles in professional journals and is currently preparing a textbook on clothing and human development.

Dr. Compton's husband, William R. Compton, recently retired as general counsel for the Department of the Army. They have two children: William, Jr., a medical student at Dartmouth, and Anne Elizabeth, a student at Utah State.

DR. COMPTON . . . new dean

VET STUDENTS HONORED—Two Auburn seniors in veterinary medicine received \$100 cash awards from the Upjohn Co. for clinical proficiency. Upjohn officials from left, Dr. Warren Barton of Jasper; Dr. Charles J. Farho of Kala-

mazoo, Mich., and R. J. Petrick of Atlanta made the presentation to Ted Cundiff of Vada, Ky., and Eduardo Garcia of Tampa, Fla., during a recent annual banquet given by Upjohn in honor of the senior veterinary medicine class.

Will Complete Move To Wire Rd. Site—

Grant Assures Veterinary Complex

Final plans for a basic sciences building and a new small animal clinic for Auburn's School of Veterinary Medicine are underway after the approval of a \$1,152,771 grant under the Health Professions Teaching Facilities Act. The new funds will be used with a \$1,900,000 allocation under the last statewide bond issue provided by the

Legislature and a \$690,000 grant from the National Institutes of Health. The two new buildings will complete the Veterinary School facilities on their new campus on Wire Road, 1.6 miles from the present small animal clinic. The new buildings will be located between the Large Animal Clinic and the Animal Disease Research Laboratory.

The two-story basic science building will house administrative offices and the Departments of Anatomy and Histology, Pathology and Parasitology, Physiology and Pharmacology, and

Microbiology. The new one-story small animal clinic will expand teaching and research possibilities of the present Small Animal Department.

The architectural firm of Pearson, Tittle & Narrows is working with University planner William H. Guerin on plans for the new facilities. Dr. Aaron H. Groth, Jr., head of the Department of Pathology and Parasitology, heads the building committee.

Dean James E. Greene said advertising for bids will begin in July and construction should be underway by September. The new buildings will require from 18 months to two years to complete.

Research Grants, Contracts

(Continued from page 1)

professional advisory service center on Civil Defense to be established at Auburn University under a contract-grant of \$38,483 by the Department of the Army's Office of Civil Defense. The Auburn Center will provide seminars, lectures, and workshops on the principles of fallout shelter design for architects, engineers, builders, and public officials.

Numerous grants support projects in several areas of the School of Agriculture. A three-year research contract for \$15,000 to the Animal Science Department from the Tennessee Valley Authority promotes basic research on the evaluation of use of hardwood sawdust and other wood residue as roughage for ruminants.

A \$4,000 grant from Giegy Chemical Corp. to the Department of Agronomy supports research on decomposition rates of certain chemical applications in soil. A Hoffman-La Roche grant of \$5,000 continues Poultry Science Department research on the control of coccidiosis in poultry.

Dr. Roger S. Berger of zoology-entomology will continue to direct a research project supported by a \$24,600 grant from the Public Health Center on the sex pheromones of ticks.

The Cooperative Extension Service has received \$1,000 grants from both the Morton Chemical Co. and the Shell Chemical Corp. for a nematode control demonstration program on peanuts.

The School of Education received \$72,000 from the U.S. Office of Education plus \$3,500 through Title II of the Higher Education Act of 1965 for a cooperative program with Southern Union Junior College.

The National Institutes of Health awarded the School of Veterinary Medicine a grant for \$6,399.

The Water Resources Institute will carry out a \$12,000 contract with the Alabama State Planning and Industrial Development Board on a series of research studies relating to the develop-

(Continued on page 13)

Auburn Selects Fortenberry—

To Head Political Science

Dr. Charles N. Fortenberry has been named head of Auburn's new Department of Political Science. Presently chairman and professor of political science at the University of Mississippi, he will assume his duties at Auburn on Aug. 1.

Dr. Fortenberry taught political science and government at the University of Illinois, Pan-American College, Texas A & M and North Texas State University before joining the University of Mississippi faculty in 1946. He holds bachelor's and master's from the University of Mississippi and the Ph.D. from the University of Illinois.

Among his publications is *Mississippi State Government and Administration*, published by T. Y. Crowell Co., which he wrote with Dr. R. B. Highsaw, head of the political science department at the University of Alabama. Other works include *A Handbook for Mississippi Legislators*, *A Guidebook of the Chancery Clerk*, and many articles in professional and scholarly journals. A volume to be published soon by the Southern Assembly Press at Tulane University on selected Southern state legislatures will contain a chapter by Dr. Fortenberry.

An outgrowth of the Department of History and Political

Dr. Fortenberry

Science, the new department will utilize several of the current Auburn faculty to make up its faculty of 12. The Political Science Department will offer the Master of Political Science at the Air University at Maxwell AFB through the new cooperative program which begins next fall.

Dugger Resigns As Alumnews Editor

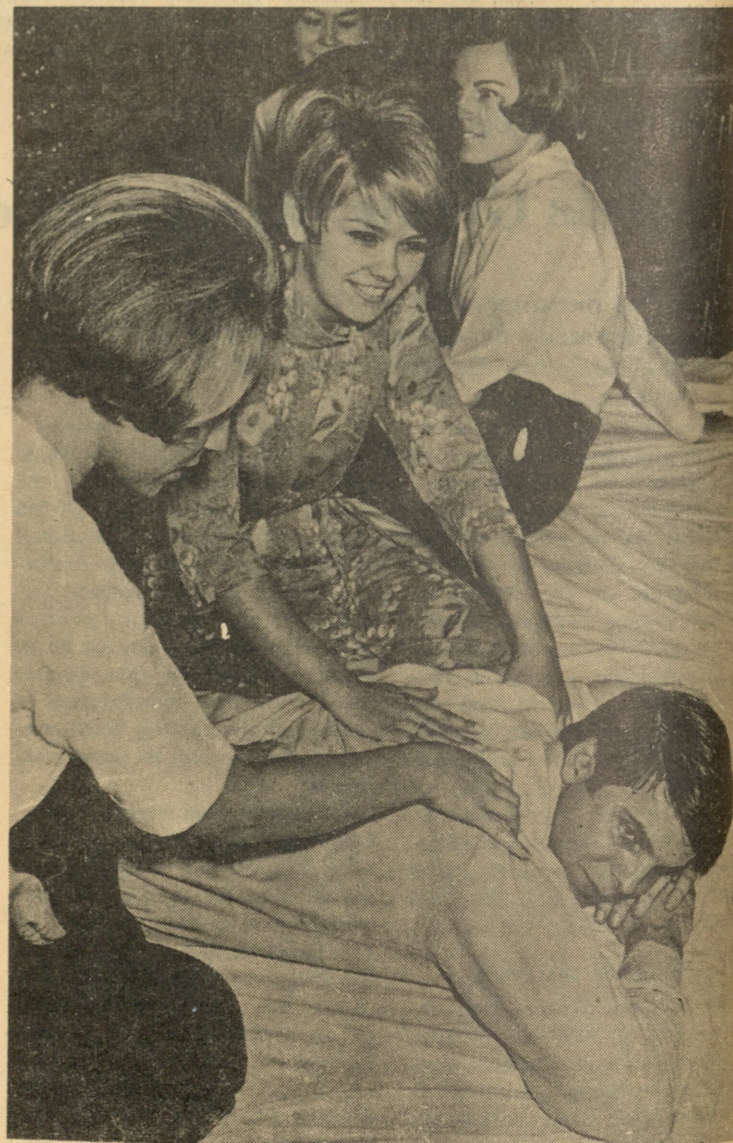

Fowler Dugger, Jr. resigned as editor of *The Alumnews* on Feb. 1 to become director of news and publications at St. Andrews Presbyterian College in Laurinburg, N.C. Kaye Lovvorn '64 succeeds him as editor.

Mr. Dugger came to Auburn in 1948 where he worked with the *Lee County Bulletin* until he joined the Auburn University Interpretation Service in 1953 as a writer. In 1960 he joined the Alumni Association as administrative assistant to the Auburn University Development Director, writing material used in the \$2.5 million campaign under way at that time. He became editor of *The Alumnews* in 1965 and has continued to work with the Auburn Annual Giving Program.

After attending Bowdoin College and the University of The South at Sewanee, Mr. Dugger received a B.A. from the University of Alabama and an M.A. from Duke University.

In Auburn he has been an elder in the Presbyterian Church and president of the Parent-Teachers Association. Mr. Dugger and his wife Vivian have four children: Carol, a freshman at St. Andrews, Dorothy, Lee, and Lane.

Miss Lovvorn began writing for *The Alumnews* as a journalism workshop student in 1964. After a short time with the Extension Editorial Office, she returned to *The Alumnews* as editorial assistant in 1965. In 1966 she became assistant editor.

ALL FOR FUND—Who wouldn't give to the Auburn All-Campus Fund Drive with such incentive around? Joe Sims of Birmingham gets a Japanese back-rub from Margaret Sibley of Sheffield and Barbara Akins of Amhurst, N.Y., for his contribution. Such attractions at the All-Campus Carnival kicked off the week-long drive to raise \$11,000 for worthy projects supported by the Auburn students.

Montgomery Firm Makes Unique Grant To ETV

Alumnus James Thompson '46, president of Caffco Associates of Montgomery, has awarded the Auburn ETV studios a \$2,500 grant to produce a series of programs dealing with the art and culture of the flower industry. ETV Director Ed Wegener says the grant "marks a new era of service and cooperation as a first step in a growing use of educational television to meet the diverse needs of the general viewing audience in Alabama. It is significant that Caffco has recognized the need for cooperation between education and industry and has been the first to help bring revitalized program service to the state through public television and the Alabama Educational Television Network."

Dr. Henry Orr, head of the Ornamental Horticulture Department at Auburn, will host the program which is scheduled for next summer. Eleanor Whitelaw '36 will produce and direct it. The series will cover the history of live and permanent flowers, the history of the florist industry, creativity in flower art, and the use of flowers for special occasions.

VISITING PROFESSOR APPOINTED — Dr. Charles G. Gomillion has been appointed Visiting Professor of Education for winter and spring quarters. Dr. Gomillion is professor of sociology at Tuskegee Institute where he will continue to teach one-third of the time. He has been with Tuskegee Institute almost continuously since 1928, serving the College at various times as chairman of Social Sciences Department, Dean of the School of Education, and Dean of Students. A graduate of Paine College, Dr. Gomillion earned his Ph.D. at Ohio State University which recently awarded him an honorary Doctor of Laws.

CUTBACK OF NDEA FUNDS — Auburn, like universities nationwide, is experiencing a cutback in the number of National Defense Education Act fellowships for 1968. Only 14 new three-year fellowships are allotted to AU compared with 25 for 1966 and 1967. Proportionally, Auburn fared better than the national average, according to Graduate Dean W. V. Parker, who said the total fellowships were reduced from 6,000 to 3,328. There are currently 50 NDEA fellows studying in 10 Auburn departments.

POSSIBLE NEW DEGREE — If approved by the Graduate Council, Auburn will offer a master's in regional planning beginning in September. President Harry M. Philpott announced the possibility at a recent Auburn Urban Planning Seminar offered by the School of Architecture.

TECHNICAL SERVICE — The National Evaluation Committee for State Technical Service Programs met at Auburn in mid-December to evaluate state service programs in Alabama, Florida, Georgia, and Tennessee. Chairman of the Committee is former Congressman Carl Elliott

of Jasper. Eleven projects under the State Technical Services program are approved in Alabama. Nine are at Auburn, one at the University of Alabama, and another at Southern Research Institute in Birmingham.

COMMUNICATIONS INSTITUTE — Two first-time institutes in communications for English teachers and broad media specialists will be operated at Auburn this summer. Dr. William S. Smith, Alumni Professor of Speech, will direct the oral communications institute, which will center on teachers who have no special training in communication but who have an interest in developing classroom activities in this area for their students. Dr. Thomas E. Miller, associate professor of education will direct the program on educational media. Participants who are assigned to educational media responsibilities in their schools will be helped in planning and carrying out programs for special needs. Both institutes will be operated through NDEA grants.

WALKER ART SHOW — A one-man show by Art Professor Brack Walker opened in art Gallery 31 in Birmingham on Feb. 4. Professor Walker, widely known throughout the Southeast for his cartooning and sculpture as well as painting, has received numerous awards for his work. Until recently he regularly contributed satirical cartoons disguising present day absurdities in medieval illustrations to the *Birmingham News* monthly magazine.

BEST WAY TO FLY — Professor Gary Kitley, chief flight instructor at Auburn is preparing a new training syllabus for students in the private pilot course of the School of Aviation. Kitley points out that little change has been made in the private pilot curriculum since the 1930's except for additional instrument training. Professor Kitley plans to do a three-year follow-up study on his graduate pilots. From the study, he hopes to evaluate the syllabus and determine if new training methods are needed. The research effort brings the School of Aviation into the three streams of Auburn University programs — instruction, research, and extension. During the past year the Extension education program for airport managers and flight instructors was inaugurated.

CINE CUM LAUDE — The Auburn Fine Arts Committee began a new fine arts film series on Feb. 8 with the showing of *The Taming of the Shrew*. The series, done in cooperation with Columbia Pictures, is expressly for the University Campus. On Feb. 29, Auburn students will have a chance to see *Dr. Faustus*, currently premiering in New York.

OUTSTANDING ENGINEER — The Engineer's Council at Auburn chose Clifford Capps, left, an electrical engineering student, as outstanding engineer for fall quarter. He receives a plaque and congratulations from Dean of Engineering Fred H. Pumphrey. Also pictured are, from left, Larry

Rosser of Piedmont, summer quarter's alternate, and fall quarter alternates Jim Logan of Kingston, Tenn., and George McKay of Tulsa, Okla. The outstanding engineer for summer quarter was Hewlett E. Melton of Woodbury, Ga., and the other alternate was John E. Caruthers of Lanett.

THE MUSIC DEPARTMENT PRESENTS — Recent recitals by Auburn music faculty have included a joint recital by Edgar Glyde, viola, and Roman Lavore, piano, on Jan. 10. Professor Glyde teaches strings and directs the Auburn University Orchestra. Mr. Lavore, an assistant professor of piano, was a soloist with the Columbus Symphony during the 1966-67 season. He presented a joint recital with his sister at New York's Carnegie Hall on Dec. 29. Mr. Lavore also presented a recital at Auburn on Feb. 14. Dr. John William Tamblyn, professor of organ and piano, presented a piano recital Jan. 24 featuring works by Debussy in observance of the 50th anniversary of the composer's death. The Auburn Chamber Orchestra, in its 20th season, performed works by Bach, Handel-Jacob, Bizet and Haydn. Professor Edgar Glyde directs the 35-member orchestra. Dr. Richard Amacher is concertmaster.

LECTURES, LECTURES — The NSF Visiting Science Program brought Dr. Howard W. Butler to Auburn in January for lectures in the Mechanical Engineering Department on variational methods in nonequilibrium thermodynamics. Robert G. Cleveland, director of the Office of Public Services of the Department of State, speaking at Auburn said the "real issue of the Vietnam war is not that of escalation or pulling-out, but what kind of foreign policy the U.S. should have." He then defined U.S. foreign policy as "creating world order based on peace. A balance of power is necessary in Asia to maintain world order—and only the U.S. will try to provide this balance." Mr. Cleveland suggested that "too much information from too many

Effective In September—

Residence Rules Change

Not only is the competition to get into Auburn University getting stiffer year by year, but beginning fall quarter, Auburn students are going to find it harder to stay in. New, and stiffer, requirements for continuation in residence become effective in September. The stricter rules for residence will be based on a quarterly rather than a yearly system.

The new requirements state that a student will be placed on academic probation whenever the total number of hours he has attempted exceeds total grade points earned by more than 12. The totals are to be computed quarterly. For example, a student who has attempted 100 hours at the end of a given quarter must have earned at least 88 honor points, according to the new requirement, or be placed on probation. However, no fresh-

man will be placed on academic probation on the basis of his first quarter's work here. At present eligibility to remain in school is based on a percentage between hours attempted and grade points earned and is computed yearly.

Dr. Wilford-S. Bailey, Vice President for Academic Affairs and chairman of the academic affairs committee which adopted the new rules, says the new regulations "will be easier to understand and at the same time be more rigorous and demanding without being an unfair burden to the students. A student may clear a probation by reducing his grade point deficiency to 12 or fewer grade points."

A student on probation will be placed on academic suspension for two quarters whenever the number of hours earned exceeds grade points by more than 21. However, such a student will not be suspended at the end of a quarter in which he earns a 1.0 (c) average, but he will be continued on academic probation.

Following a first academic suspension of two quarters a student will be readmitted on academic probation. If he incurs a second academic suspension he is indefinitely suspended and will be readmitted only on special approval by the Admissions Committee on the basis of adequate evidence of ability, maturity, and motivation. Generally a student must be on indefinite suspension at least four quarters before his application for readmission will be considered.

(Continued on page 5)

Here And There—

Man's Stock Of Reason

By Jerry Roden, Jr. '46

"We are afraid to put men to live and trade each on his private stock of reason; because we suspect that this stock in each man is small, and that the individuals would do better to avail themselves of the general bank and capital of nations and of the ages."

—Edmund Burke

These are times in which no thoughtful man can look at the world around him with complacency. At home and abroad the sporadic shocks from the explosions of powerful caps, make us wonder if the next, or perhaps the still present vibrations from the last one, may not detonate the annihilating force of the big stick which will reduce to dust and fragments the ancient edifice of civilization.

Roden

Some thoughtful people suggest from time to time that the rebelliousness of a large segment of our youth derives principally from having grown up in an era of uncertainty created by the ever-present ominous shadow of the big bomb. Those of us born sometime before the creation of that monster of human ingenuity can not deny upon the basis of any unquestionable evidence the possible validity of such a claim.

Yet it behooves us, young and old alike, to avoid excusing any lack of manliness and individual responsibility with self-pampering rationalizations about the debilitating uncertainties of our age. One scarcely has to be a historian to realize that in no era of recorded history have men lived in absolute security. And while we are meditating upon the subject, we might do well to glance at a few certificates deposited in the musty vaults of the Bank of the Ages.

The Venerable Bede records that at a council of the wise men of Northumbria called by King Edwin in the year 627, one sage stated:

The present life of man, O king, in comparison to that which is unknown to us, seems to be like the swift flight of a sparrow through the hall wherein you sit at dinner in the winter, with your chieftains and ministers, and a good fire in the midst, while the storms of rain and snow rage without. The sparrow flies in at one door and immediately out at another. While he is within he is safe from the wintry storm, but after a brief interval of fair weather he immediately vanishes from sight into the dark winter from which he came. So this life of man appears for a brief interval, but we are utterly ignorant of what went before or what will follow.

Daily exits from the hall into the dark wintry night by men, women, and children of all ages, ranks, and stations serve as constant reminders to us all that each man moves inevitably toward the day when the fire will no longer glow for his mortal eyes and when it will have no power in its warmth to quicken again the flow of his now congealed blood. That "undiscovered country from whose bourn no traveler returns" has from the beginning been the destination of every man born to look with delight upon the rising sun. And men who

LETTERS

USS Oriskany
January 10, 1968

Dear Editor:

War Eagle, Mint Juleps, Weejuns, and Mini-skirts! The Plainsmen, Midway Drive-In and the 'Bama game! Why don't you good folks ship said items and emotions to Yankee Station in Tonkin Gulf, where one Navy attack pilot in particular would really appreciate them?

Day and night, attack strikes are being launched against North Vietnam from our carriers in Tonkin Gulf. This never-ending ritual continues seven days a week, 365 days a year. There are many pilots from Auburn in the combat theater and a good percentage are Navy. You don't really have to send the above-mentioned memories to us, for we carry them in our thoughts on every major air strike into NVN.

I fly the A-1 "Skyraider", which is a Korean-War vintage, propeller-driven, light attack-bomber. Our mission is mainly that of rescue combat air patrol (RESCAP) since the air war has recently been limited to the faster, jet-type aircraft which deliver tons of ordnance daily to strategic targets in NVN. We, the "SPAD" pilots, are concerned with getting a downed pilot out of NVN along with the various helicopters who make the actual pick-up—the "Jolly Greens," "Big Mothers," and "Clemelines." As you know, not every strike proves to be disastrous to the pilots. Hence, our job is filled with hour upon hour of utter boredom, interrupted by moments of stark terror. When we hear on our radios that a pilot has been shot down over NVN, we must analyze the possibilities of getting him out while taking into consideration the area of NVN in which he was hit. I have escorted a helicopter into NVN and rescued a downed pilot within a 30-mile range of Hanoi. On this rescue, our SPADS spent a

total of 4½ hours over NVN which isn't conducive to longevity. Believe me, one regains a lot of that religion he may have let fall by the wayside. Professionalism means whether or not one survives, but a little prayer at the right time seems to comfort those who are in doubt as to their professionalism. To quote one who is wiser and older than I, "It is damn hairy, isn't it?"

One of the Squadron Commanding Officers aboard the carrier ORISKANY is CDR. Brian Compton, of Demopolis. He is in charge of approximately 14 A-4 "Skyhawks" and 18 pilots. To his squadron-mates, "Magnolia One" is the best attack pilot in the Navy. It is a shame Auburn can't claim him, for he is an Academy graduate. Along with us, he has seen pilots come and go. His Squadron has lost over eight, young professionals during this seven-month cruise. One of his young pilots, and my ex-roommate, is now a prisoner-of-war in the Hanoi Hilton. His age, 25. I have grown to accept the hard, cold facts of life early, for war tends to build within the young a strong sense of reality at a "tender age." Our Air Wing aboard the ORISKANY has lost over 24 pilots; some are prisoners and the rest are dead. These men were not merely doing their part. These men were the BEST the U.S. had to defend the ideals we hold so dearly back home.

All is not bad in this part of the world, however. We are fortunate because we have been to Japan on three occasions, the Philippines, four, and Hong Kong, once. We spent the Christmas holidays in the world's most fascinating city — Hong Kong. Sadly enough, most of the episodes which occurred in that fair town would be censored by the *Alumnews* staff, so I will merely say we had a wonderful time.

(Continued on page 5)

lived long before either Hamlet or King Edwin's sage were no less conscious than they were, or we are, of the fact. Does it really matter so much then with what "ahorred shears . . . the blind Fury . . . slits the thin spun life"?

Once upon a time, says the Pearl Poet, Sir Gawain the Good set out from King Arthur's court upon a mission requiring almost incredible valor—set out upon that mission only because his core of honor and his Christian faith demanded that he meet the

test of receiving upon his unprotected neck the blow of a mighty axe wielded by a giant endowed with supernatural strength and apparently with physical immortality. As he set out upon his awful mission, Sir Gawain said to his sorrowing friends: "A man can but essay." Can any human expect to, or be expected to, do more than just that? And can any man pride himself upon manhood if he does less than that in response to whatever trials providence, or fate, may allot him?

Editor's Column

A Trio Of Auburn Men

You can't touch it, record it or photograph it, but the Auburn Spirit, nevertheless, has the power to capture the hearts of not only thousands of alumni but also numerous non-alumni—making them all ardent Auburn supporters.

Among the most outstanding manifestations of the Auburn Spirit by an alumnus is the devotion of Dr. Paul S. Haley '01 whose death on Jan. 31 ended 70 years of general service to Auburn and an unparalleled record of 51 years of service as a trustee. The greatest English Bard once remarked that the good a man does dies with him while the bad lives on. But this maxim does not apply to Dr. Haley. Auburn University today reflects "the good" Paul Haley did. The Auburn University of tomorrow will rise from a foundation based on the good work of such as he.

The majority of Auburn alumni of the past 51 years have had some contact with Dr. Haley, meeting him, at least, in his frequent walks across the campus or at graduation receptions. For those who work in many University offices, his periodic visits were as much a part of Auburn as Samford Tower.

Future generations of Auburn alumni will not have our opportunity for personal contact with Dr. Haley; but, perhaps unknowingly, they will share his influence. Certainly they will learn in Paul S. Haley Center, currently under construction. The 10-story education-liberal arts center will be Auburn's largest educational facility and a fitting memorial of Dr. Haley's service to his alma mater.

The Auburn Spirit demonstrated its power to win alumni of other institutions for its own with sports announcer Buddy Rutledge. "The Voice of the Auburn Tigers" stopped the same week Dr. Haley died. Since 1960 Auburn fans across the South had only to twirl a radio dial and catch the nuances of a familiar voice to know that "Auburn Sports" was on the air. Buddy Rutledge transmitted the color and excitement of Cliff Hare Stadium on a bright fall afternoon and that of a packed Sports Arena on a crisp winter night to thousands who have never been to Auburn. Few of those listeners knew the personal bravery of the sports announcer whose own football career was ended by polio. But we all knew he was a great announcer whose love for Auburn conveyed the Auburn Spirit—winning or losing. And we all know that listening to Auburn sports is no longer the same.

The Auburn Spirit's magic on the alumni of other institutions proved no weaker on an alumnus of our number one rival in the case of Fowler Dugger, Jr., a University of Alabama alumnus. His love for everything Auburn—university, sports, students, town—has been so evident that we can hardly believe another institution has enticed him away. In his on-campus work with the Interpretation Service, as writer for development and annual giving, and finally as editor of *The Alumnews*, Mr. Dugger steadily demonstrated his love for Auburn. Much richer for having known Fowler Dugger, Jr., are Auburn University, its Alumni Association, and particularly we who have worked closely with him. We shall miss his talents, his hard work, his concern for others, his dry but wonderfully warm wit, and his patient strength.

Paul S. Haley: 51 Years Of Service To Auburn

By BRUCE NICHOLS '68

"He made a profession of being a trustee," observes one friend of the late Dr. Paul Shields Haley, who served continuously on the Auburn Board of Trustees from 1917 until his death Jan. 31.

And when friends talk about Dr. Haley, they repeatedly refer to the "great capacities"—for love, for friendship, for work, and, in old age, for physical endurance—which "made" him a special person and a great trustee.

"He was the backbone of the Board of Trustees," says former Auburn President Ralph B. Draughon. "He knew more about what was going on inside Auburn than anyone else. Dr. Haley often went to the various research departments to find out what they were doing and thinking. I don't think any institution has ever had a better trustee," Draughon says.

"Dr. Haley not only dutifully attended the Board of Trustees meetings, he felt it his duty to attend every commencement ceremony—all four each year," says former Registrar Charles Edwards.

EDITOR'S NOTE: This feature and sketch of Dr. Paul S. Haley are examples of the outstanding work that keeps the **Auburn Plainsman** ranked among the top collegiate newspapers of the nation. Bruce Nichols, author of the feature, edits the **Plainsman**. A senior in history from Gadsden, Bruce is the son of Mr. and Mrs. Paul R. Nichols '40. Artist Chip Holland is assistant technical editor of the **Plainsman** and will be arts editor next quarter. Chip, a sophomore in Visual Design, is the son of Mr. and Mrs. Preuit Holland of Birmingham.

"He was," observes Dean of Women Katharine Cater, "concerned with the big overall things, but he was also concerned with individuals. He would stand in the receiving line after the ceremony, even in his later years, to speak to all the new graduates," she remembers. "If he didn't know the student, he almost always knew someone from their hometown or their family. He took so much time with each individual graduate that after a while, he had to have a special place at the reception because he slowed the line down so much," she says.

Dean Cater recalls one encounter at a faculty reception. When a young faculty member came through the receiving line and introduced herself to Dr. Haley, he said, "Oh yes, you are the one who went to Randolph-Ma-

con." He had not met the young woman; he remembered reading her name in the catalogue.

Phenomenal Memory

Such feats of Dr. Haley's mental alertness are legendary. "His memory at the age of 87 was phenomenal," says Mrs. Carolyn Dixon of the university archives office. In an interview taped with her last December, Dr. Haley related the story of Auburn from 1898, when he was an undergraduate transfer student, through 1967. "The details he could recall are amazing," says Mrs. Dixon. "When he came to Auburn," she says, "there were approximately 380 students, all male, and they all wore military uniforms. On the tape, Dr. Haley describes military drill using Springfield rifles, many friends and professors, and the village of Auburn which he says had no public water supply then. He brings us up to the present on the tape with innumerable and invaluable references to specific names and dates."

Mistakes In Catalogue

"He was the only person I ever knew," says Dean Cater, "who could find mistakes in the printed university catalogue. He was probably the only person connected with the university who even read it all the way through," she says. "It was his business to know everything about Auburn."

Dr. Haley read voraciously to keep abreast of news relating to his interests.

"Just about every time I saw him," remembers Campus Security Officer Millard Dawson, "he had a book or other reading material with him. When he had a little time, he was reading. Nearly every trip down here from his home in Jasper, he would take time out for a visit

to the library. And often we'd return books for him," Dawson added.

"He really kept up with what was happening," says Dean of Student Affairs James E. Foy. "Whenever he read in the newspaper about a friend's achievement, no matter how insignificant, he usually clipped the article and sent it along with a note of congratulations to the friend so honored."

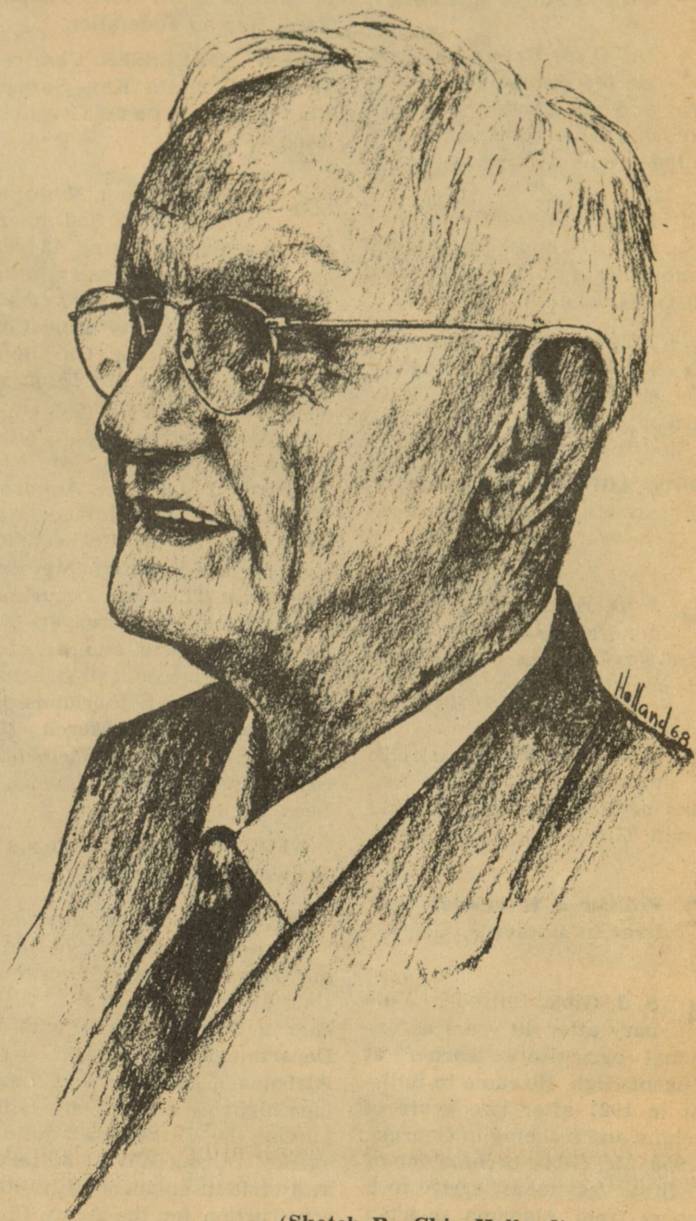

According to Dawson, Dr. Haley personally typed many letters expressing congratulations or thanks right up until his death.

Before Mrs. Haley died in 1962, the visiting couple stayed in guest quarters in the social center. "He liked the central location," explains Dean Cater. "He used to walk all over the campus, but as the years passed he came to rely more and more on friends or the campus police for transportation. After his wife's death, Dr. Haley usually stayed in a guest room in Magnolia Hall when he visited the campus and came to rely on the campus police to carry him around."

"He was always very thoughtful of us," says Chief Dawson. "He was very prompt. If he had a ball game to attend or a train to catch, he was ready to leave on time. And he was always very genial."

His thoughtfulness was manifested in other ways, too, according to Edwards and Dean Cater.

"Before I retired, he often came by the Registrar's Office," recalls Edwards, "to look through the records. Sometimes he had met a man whose daughter or son was an Auburn student, and he was checking to see how that student was doing. At other times, he was looking for information about past graduates. And, often he came in the interest of a high school student who wanted to attend Auburn," says Edwards.

(Sketch By Chip Holland)

Genuinely Interested

"This is something that the average trustee does not make time to do," adds Edwards. "But Dr. Haley made time because he was so genuinely interested."

Dean Cater remembers similar instances when Dr. Haley stopped at the social center to check on women students. "Often he had met parents or knew grandparents and merely wanted to meet the girl. At other times, he had read about some achievement and wanted to congratulate the student in person."

"His capacity for physical response in his later years was amazing," comments Dean Foy. "I remember once on commencement day, he fell down a flight of steps while crossing the campus. The fall knocked off his glasses and cut his head. We were all extremely worried, but after he got up, he refused to rest because he would have missed the ceremony and he wouldn't do that."

Dean Foy also recalls his "gentle sense of humor. He was witty," says Dean Foy, "but never at the pained expense of others."

Chief Dawson relates one example of the Haley humor. "He was able to keep a sense of humor despite his increasing age," says Chief Dawson. "Once he had taken off his shoes at the campus security office to rest his feet and I cleaned them up for

him before he put them back on. When he noticed what I had done he said, 'Why, you did a better job than the boy in the barber shop up town. Maybe I ought to pay you something.'"

'Unpretentious and Unassuming'

Miss Zoe Dobbs, former Dean of Women, found him "unpretentious and unassuming." One story about Dr. Haley describes an incident in the president's office several years ago. A secretary had noticed a tear in one of his shirtsleeve cuffs and called his attention to it. Without hesitation, Dr. Haley had her cut the long sleeves off his shirt right there in the office, threw them in the wastebasket, put his coat back on, and walked out the door.

"Every time he came to Auburn, he came by to see me," Miss Dobbs adds. "Once, recently, he was so weak he was hardly able to get up the steps at my house when he came over. But he had come to Auburn anyway, against the wishes of friends, to attend to business. He had a strong sense of duty. There was never any lag in him when there was a duty to perform. He entered into it with alacrity."

"His sense of duty to God, to the institution, and to others was the source of his greatness," she adds. "And this is what kept him active and vital for so long."

Campus Round-Up

(Continued from page 3)

ard Lantham, the industrial designer responsible for the Greyhound Scenicruiser, the first two-level transcontinental bus in the U.S.; Dr. Harry A. Anthony, professor of urban planning at Columbia University and winner of the first prize in the International Competition for Housing and City Planning in Paris; Serge Chermayeff, an architect, planning consultant, and industrial designer, now a professor at Yale University; and Robert Downing, director of the National Theatre Services of the American National Theatre and Academy.

SMOKING AND HEALTH

At a regional smoking conference held at Auburn, Fairfield physician Dr. Robert Walton of the Lloyd Noland Hospital offered only the grimmest statistics for smokers and no hope for safer cigarettes. He said one new filter now being discussed will

require 30 years of testing to determine any safety value. State Health Officer Dr. Ira Myers called smoking the No. 1 air pollution problem.

CONCERT SERIES — Broadway came to Auburn on Jan. 24 for a performance of **The Roar of the Greasepaint, The Smell of the Crowd**. The musical comedy complete with original cast, made the Auburn appearance as a part of its initial national tour.

The Birmingham Symphony, conducted by Amerigo Marino performed on Jan. 18. On Feb. 5 The French National Dance Company, making its first American Tour, transformed the Student Activities building with Basque century dances, regional dances, comic dances and folk reels. Upcoming in the 1968 lecture concert series are the Branko Krsmanovich Chorus and William Walker.

Here And There—

Man's Stock Of Reason

By Jerry Roden, Jr. '46

"We are afraid to put men to live and trade each on his private stock of reason; because we suspect that this stock in each man is small, and that the individuals would do better to avail themselves of the general bank and capital of nations and of the ages."

—Edmund Burke

These are times in which no thoughtful man can look at the world around him with complacency. At home and abroad the sporadic shocks from the explosions of powerful caps, make us wonder if the next, or perhaps the still present vibrations from the last one, may not detonate the annihilating force of the big stick which will reduce to dust and fragments the ancient edifice of civilization.

Roden

Some thoughtful people suggest from time to time that the rebelliousness of a large segment of our youth derives principally from having grown up in an era of uncertainty created by the ever-present ominous shadow of the big bomb. Those of us born sometime before the creation of that monster of human ingenuity can not deny upon the basis of any unquestionable evidence the possible validity of such a claim.

Yet it behooves us, young and old alike, to avoid excusing any lack of manliness and individual responsibility with self-pampering rationalizations about the debilitating uncertainties of our age. One scarcely has to be a historian to realize that in no era of recorded history have men lived in absolute security. And while we are meditating upon the subject, we might do well to glance at a few certificates deposited in the musty vaults of the Bank of the Ages.

The Venerable Bede records that at a council of the wise men of Northumbria called by King Edwin in the year 627, one sage stated:

The present life of man, O king, in comparison to that which is unknown to us, seems to be like the swift flight of a sparrow through the hall wherein you sit at dinner in the winter, with your chieftains and ministers, and a good fire in the midst, while the storms of rain and snow rage without. The sparrow flies in at one door and immediately out at another. While he is within he is safe from the wintry storm, but after a brief interval of fair weather he immediately vanishes from sight into the dark winter from which he came. So this life of man appears for a brief interval, but we are utterly ignorant of what went before or what will follow.

Daily exits from the hall into the dark wintry night by men, women, and children of all ages, ranks, and stations serve as constant reminders to us all that each man moves inevitably toward the day when the fire will no longer glow for his mortal eyes and when it will have no power in its warmth to quicken again the flow of his now congealed blood. That "undiscovered country from whose bourn no traveler returns" has from the beginning been the destination of every man born to look with delight upon the rising sun. And men who

LETTERS

USS Oriskany
January 10, 1968

Dear Editor:

War Eagle, Mint Juleps, Weejuns, and Mini-skirts! The Plainsmen, Midway Drive-In and the 'Bama game! Why don't you good folks ship said items and emotions to Yankee Station in Tonkin Gulf, where one Navy attack pilot in particular would really appreciate them?

Day and night, attack strikes are being launched against North Vietnam from our carriers in Tonkin Gulf. This never-ending ritual continues seven days a week, 365 days a year. There are many pilots from Auburn in the combat theater and a good percentage are Navy. You don't really have to send the above-mentioned memories to us, for we carry them in our thoughts on every major air strike into NVN.

I fly the A-1 "Skyraider", which is a Korean-War vintage, propeller-driven, light attack-bomber. Our mission is mainly that of rescue combat air patrol (RESCAP) since the air war has recently been limited to the faster, jet-type aircraft which deliver tons of ordnance daily to strategic targets in NVN. We, the "SPAD" pilots, are concerned with getting a downed pilot out of NVN along with the various helicopters who make the actual pick-up—the "Jolly Greens," "Big Mothers," and "Clemelines." As you know, not every strike proves to be disastrous to the pilots. Hence, our job is filled with hour upon hour of utter boredom, interrupted by moments of stark terror. When we hear on our radios that a pilot has been shot down over NVN, we must analyze the possibilities of getting him out while taking into consideration the area of NVN in which he was hit. I have escorted a helicopter into NVN and rescued a downed pilot within a 30-mile range of Hanoi. On this rescue, our SPADS spent a

lived long before either Hamlet or King Edwin's sage were no less conscious than they were, or we are, of the fact. Does it really matter so much then with what "ahorred shears . . . the blind Fury . . . slits the thin spun life"?

Once upon a time, says the Pearl Poet, Sir Gawin the Good set out from King Arthur's court upon a mission requiring almost incredible valor—set out upon that mission only because his core of honor and his Christian faith demanded that he meet the

total of 4½ hours over NVN which isn't conducive to longevity. Believe me, one regains a lot of that religion he may have let fall by the wayside. Professionalism means whether or not one survives, but a little prayer at the right time seems to comfort those who are in doubt as to their professionalism. To quote one who is wiser and older than I, "It is damn hairy, isn't it?"

One of the Squadron Commanding Officers aboard the carrier ORISKANY is CDR. Brian Compton, of Demopolis. He is in charge of approximately 14 A-4 "Skyhawks" and 18 pilots. To his squadron-mates, "Magnolia One" is the best attack pilot in the Navy. It is a shame Auburn can't claim him, for he is an Academy graduate. Along with us, he has seen pilots come and go. His Squadron has lost over eight, young professionals during this seven-month cruise. One of his young pilots, and my ex-roommate, is now a prisoner-of-war in the Hanoi Hilton. His age, 25. I have grown to accept the hard, cold facts of life early, for war tends to build within the young a strong sense of reality at a "tender age." Our Air Wing aboard the ORISKANY has lost over 24 pilots; some are prisoners and the rest are dead. These men were not merely doing their part. These men were the BEST the U.S. had to defend the ideals we hold so dearly back home.

All is not bad in this part of the world, however. We are fortunate because we have been to Japan on three occasions, the Philippines, four, and Hong Kong, once. We spent the Christmas holidays in the world's most fascinating city — Hong Kong. Sadly enough, most of the episodes which occurred in that fair town would be censored by the **Alumnews** staff, so I will merely say we had a wonderful time.

Editor's Column

A Trio Of Auburn Men

You can't touch it, record it or photograph it, but the Auburn Spirit, nevertheless, has the power to capture the hearts of not only thousands of alumni but also numerous non-alumni—making them all ardent Auburn supporters.

Among the most outstanding manifestations of the Auburn Spirit by an alumnus is the devotion of Dr. Paul S. Haley '01 whose death on Jan. 31 ended 70 years of general service to Auburn and an unparalleled record of 51 years of service as a trustee. The greatest English Bard once remarked that the good a man does dies with him while the bad lives on. But this maxim does not apply to Dr. Haley. Auburn University today reflects "the good" Paul Haley did. The Auburn University of tomorrow will rise from a foundation based on the good work of such as he.

The majority of Auburn alumni of the past 51 years have had some contact with Dr. Haley, meeting him, at least, in his frequent walks across the campus or at graduation receptions. For those who work in many University offices, his periodic visits were as much a part of Auburn as Samford Tower.

Future generations of Auburn alumni will not have our opportunity for personal contact with Dr. Haley; but, perhaps unknowingly, they will share his influence. Certainly they will learn in Paul S. Haley Center, currently under construction. The 10-story education-liberal arts center will be Auburn's largest educational facility and a fitting memorial of Dr. Haley's service to his alma mater.

The Auburn Spirit demonstrated its power to win alumni of other institutions for its own with sports announcer Buddy Rutledge. "The Voice of the Auburn Tigers" stopped the same week Dr. Haley died. Since 1960 Auburn fans across the South had only to twirl a radio dial and catch the nuances of a familiar voice to know that "Auburn Sports" was on the air. Buddy Rutledge transmitted the color and excitement of Cliff Hare Stadium on a bright fall afternoon and that of a packed Sports Arena on a crisp winter night to thousands who have never been to Auburn. Few of those listeners knew the personal bravery of the sports announcer whose own football career was ended by polio. But we all knew he was a great announcer whose love for Auburn conveyed the Auburn Spirit—winning or losing. And we all know that listening to Auburn sports is no longer the same.

The Auburn Spirit's magic on the alumni of other institutions proved no weaker on an alumnus of our number one rival in the case of Fowler Dugger, Jr., a University of Alabama alumnus. His love for everything Auburn—university, sports, students, town—has been so evident that we can hardly believe another institution has enticed him away. In his on-campus work with the Interpretation Service, as writer for development and annual giving, and finally as editor of *The Alumnews*, Mr. Dugger steadily demonstrated his love for Auburn. Much richer for having known Fowler Dugger, Jr., are Auburn University, its Alumni Association, and particularly we who have worked closely with him. We shall miss his talents, his hard work, his concern for others, his dry but wonderfully warm wit, and his patient strength.

Paul S. Haley: 51 Years Of Service To Auburn

By BRUCE NICHOLS '68

"He made a profession of being a trustee," observes one friend of the late Dr. Paul Shields Haley, who served continuously on the Auburn Board of Trustees from 1917 until his death Jan. 31.

And when friends talk about Dr. Haley, they repeatedly refer to the "great capacities"—for love, for friendship, for work, and, in old age, for physical endurance—which "made him a special person and a great trustee."

"He was the backbone of the Board of Trustees," says former Auburn President Ralph B. Draughon. "He knew more about what was going on inside Auburn than anyone else. Dr. Haley often went to the various research departments to find out what they were doing and thinking. I don't think any institution has ever had a better trustee," Draughon says.

"Dr. Haley not only dutifully attended the Board of Trustees meetings, he felt it his duty to attend every commencement ceremony — all four each year," says former Registrar Charles Edwards.

EDITOR'S NOTE: This feature and sketch of Dr. Paul S. Haley are examples of the outstanding work that keeps the **Auburn Plainsman** ranked among the top collegiate newspapers of the nation. Bruce Nichols, author of the feature, edits the **Plainsman**. A senior in history from Gadsden, Bruce is the son of Mr. and Mrs. Paul R. Nichols '40. Artist Chip Holland is assistant technical editor of the **Plainsman** and will be arts editor next quarter. Chip, a sophomore in Visual Design, is the son of Mr. and Mrs. Preuit Holland of Birmingham.

"He was," observes Dean of Women Katharine Cater, "concerned with the big overall things, but he was also concerned with individuals. He would stand in the receiving line after the ceremony, even in his later years, to speak to all the new graduates," she remembers. "If he didn't know the student, he almost always knew someone from their hometown or their family. He took so much time with each individual graduate that after a while, he had to have a special place at the reception because he slowed the line down so much," she says.

Dean Cater recalls one encounter at a faculty reception. When a young faculty member came through the receiving line and introduced herself to Dr. Haley, he said, "Oh yes, you are the one who went to Randolph-Ma-

con." He had not met the young woman; he remembered reading her name in the catalogue.

Phenomenal Memory

Such feats of Dr. Haley's mental alertness are legendary. "His memory at the age of 87 was phenomenal," says Mrs. Carolyn Dixon of the university archives office. In an interview taped with her last December, Dr. Haley related the story of Auburn from 1898, when he was an undergraduate transfer student, through 1967. "The details he could recall are amazing," says Mrs. Dixon. "When he came to Auburn," she says, "there were approximately 380 students, all male, and they all wore military uniforms. On the tape, Dr. Haley describes military drill using Springfield rifles, many friends and professors, and the village of Auburn which he says had no public water supply then. He brings us up to the present on the tape with innumerable and invaluable references to specific names and dates."

Mistakes In Catalogue

"He was the only person I ever knew," says Dean Cater, "who could find mistakes in the printed university catalogue. He was probably the only person connected with the university who even read it all the way through," she says. "It was his business to know everything about Auburn."

Dr. Haley read voraciously to keep abreast of news relating to his interests.

"Just about every time I saw him," remembers Campus Security Officer Millard Dawson, "he had a book or other reading material with him. When he had a little time, he was reading. Nearly every trip down here from his home in Jasper, he would take time out for a visit

to the library. And often we'd return books for him," Dawson added.

"He really kept up with what was happening," says Dean of Student Affairs James E. Foy. "Whenever he read in the newspaper about a friend's achievement, no matter how insignificant, he usually clipped the article and sent it along with a note of congratulations to the friend so honored."

According to Dawson, Dr. Haley personally typed many letters expressing congratulations or thanks right up until his death.

Before Mrs. Haley died in 1962, the visiting couple stayed in guest quarters in the social center. "He liked the central location," explains Dean Cater. "He used to walk all over the campus, but as the years passed he came to rely more and more on friends or the campus police for transportation. After his wife's death, Dr. Haley usually stayed in a guest room in Magnolia Hall when he visited the campus and came to rely on the campus police to carry him around."

"He was always very thoughtful of us," says Chief Dawson. "He was very prompt. If he had a ball game to attend or a train to catch, he was ready to leave on time. And he was always very genial."

His thoughtfulness was manifested in other ways, too, according to Edwards and Dean Cater.

"Before I retired, he often came by the Registrar's Office," recalls Edwards, "to look through the records. Sometimes he had met a man whose daughter or son was an Auburn student, and he was checking to see how that student was doing. At other times, he was looking for information about past graduates. And, often he came in the interest of a high school student who wanted to attend Auburn," says Edwards.

(Sketch By Chip Holland)

Genuinely Interested

"This is something that the average trustee does not make time to do," adds Edwards. "But Dr. Haley made time because he was so genuinely interested."

Dean Cater remembers similar instances when Dr. Haley stopped at the social center to check on women students. "Often he had met parents or knew grandparents and merely wanted to meet the girl. At other times, he had read about some achievement and wanted to congratulate the student in person."

"His capacity for physical response in his later years was amazing," comments Dean Foy. "I remember once on commencement day, he fell down a flight of steps while crossing the campus. The fall knocked off his glasses and cut his head. We were all extremely worried, but after he got up, he refused to rest because he would have missed the ceremony and he wouldn't do that."

Dean Foy also recalls his "gentle sense of humor. He was witty," says Dean Foy, "but never at the pained expense of others."

Chief Dawson relates one example of the Haley humor. "He was able to keep a sense of humor despite his increasing age," says Chief Dawson. "Once he had taken off his shoes at the campus security office to rest his feet and I cleaned them up for

him before he put them back on. When he noticed what I had done he said, 'Why, you did a better job than the boy in the barber shop up town. Maybe I ought to pay you something.'"

'Unpretentious and Unassuming'

Miss Zoe Dobbs, former Dean of Women, found him "unpretentious and unassuming." One story about Dr. Haley describes an incident in the president's office several years ago. A secretary had noticed a tear in one of his shirtsleeve cuffs and called his attention to it. Without hesitation, Dr. Haley had her cut the long sleeves off his shirt right there in the office, threw them in the wastebasket, put his coat back on, and walked out the door.

"Every time he came to Auburn, he came by to see me," Miss Dobbs adds. "Once, recently, he was so weak he was hardly able to get up the steps at my house when he came over. But he had come to Auburn anyway, against the wishes of friends, to attend to business. He had a strong sense of duty. There was never any lag in him when there was a duty to perform. He entered into it with alacrity."

"His sense of duty to God, to the institution, and to others was the source of his greatness," she adds. "And this is what kept him active and vital for so long."

Auburn Alumnalities

'14 Coleman F. Driver now lives in Sun City, Calif.

'12 Dr. C. A. Basore has been elected commander of Auburn and Opelika's Henry D. Clayton Chapter of the Sons of Confederate Veterans.

'15 Dr. M. W. Williams was recently honored by a life membership from the Auburn Masonic Lodge No. 76.

'19 Felix A. Walker is treasurer and chairman of the board of Walker-Williams Lumber Co., Inc., in Hatchechubbee.

NEW ADDRESSES: Henry T. Killingsworth, Atlanta; Dr. Robert O. Suddath, Rome, Ga.

'20 J. D. Samford has been honored by Auburn Lodge No. 76 of the Masons with a life membership.

'21 Homer G. Bartee is vice president of the National Banks of New Orleans. He and his wife Grace live in Metairie.

'22 William J. Bickerstaff now lives in Doraville, Ga.

'24 S. J. Gibbs retired in January after 40 years as vocational agriculture teacher at Sulligent High. He came to Sulligent in 1927 after two years of coaching and teaching in Georgia. In 1958, Mr. Gibbs became one of the first vocational agriculture teachers from Alabama selected to receive the Honorary American Farmer Degree at the National FFA Convention.

L. H. Tapscott of Dallas, Tex., is now enjoying what he calls "diluted retirement" as the assistant to the pastor of the First Baptist Church in Dallas, the largest in the Southern Baptist Convention. After leaving Auburn Mr. Tapscott spent several years in Baptist student work in North Carolina and at the University of Alabama. Then he joined the staff of First Baptist Church in Dallas. Eight years later he worked as Baptist Brotherhood State Secretary for almost 19 years, later working with the Cliff Temple Baptist Church in Dallas until his retirement in 1966. After interim educational work with another Dallas church he returned to the First Baptist for part time work. This year he is chairman of the Centennial Year activities of the church. Mr. and Mrs. Tapscott have four children—a daughter and three sons—and 12 grandchildren. Their daughter graduated from Mary Hardin-Baylor College; their oldest son from Hardin-Simmons University and spent a year at the University of Texas; the second son is with Collins Radio Corp.; and the youngest son is completing requirements for a doctorate of education at the University of Texas.

NEW ADDRESS: Evans L. Edwards, Birmingham.

'25 Walter Randolph of Montgomery has been re-elected to his eighth term as vice president of the American Farm

Bureau Federation. He is a former president of the Alabama Farm Bureau Federation.

NEW ADDRESSES: Charles T. Woodroof, Siesta Key, Sarasota, Fla.; Elmer Graf, Greenville, Tenn.

'26 William Glenn Nunn will retire at the end of this school year completing 42 years as a coach, teacher, and administrator. For the past 19 years he has headed the city educational system of Valdosta, Ga. Before going to Valdosta Mr. Nunn was with the school systems in Daviston, Ala., Nelson, Ga., Canton, Ga., and Jessup, Ga. Mr. Nunn received an M.S. from Auburn in 1929 and has done further graduate work at the University of Georgia and Southern Methodist University. The State Department selected him to participate in a seminar for school administrators in comparative education held in France and the Netherlands during February and March, 1959. The W. G. Nunn Elementary School, named in his honor, has been open two years.

NEW ADDRESS: Floyd L. Brown, Opelika.

'27 Talbot S. Huff, chief engineer of highway design of the Texas Highway Department since 1954, will retire Feb. 29. He ends a 36-year career with the Department. He worked with Alabama, Tennessee and Louisiana highway departments before joining the Texas road building agency. During WW II he served as a civilian engineer of military construction for the Army Corps of Engineers in San Antonio. Mr. Huff will remain active in the field of highway research after his retirement. On March 1 he will become consulting research engineer with the Texas Transportation Institute of Texas A &

M University, maintaining an office in Austin. Also during the spring semester, Mr. Huff will lecture at the University of Texas to a graduate course in Advanced Highway Engineering—Highway Design.

E. J. Tillman and his wife Aileen live in Atlanta where he has been a building inspector for the City of Atlanta since 1955.

'28 W. H. Gregory has been elected judge advocate of the Auburn and Opelika Henry D. Clayton chapter of the Sons of Confederate Veterans.

NEW ADDRESSES: C. C. Phillips, Sr., Lakeland, Fla.; Samuel T. Shepherd, Jr., Lincoln.

'29 G. Howard Smith and his wife Lucy live in Lindale, Ga. Mr. Smith is vice president and general manager with West Point-Pepperell, Inc.

Massey B. Clayton is communications supervisor with TVA in Chattanooga.

NEW ADDRESSES: Andrew L. Smith, Selma; Mrs. Sarah Frances Holloway Brown, Prattville; William N. DuBose, Pahoake, Fla.

'30 E. Ed Teague, agricultural director of the Montgomery Area Chamber of Commerce, has been elected president of the Montgomery Lions Club.

NEW ADDRESS: Mrs. Louise Thompson Towerly, Oxford, Miss.

'31 Dr. A. M. Pearson of the Department of Zoology-Entomology has been inducted into the 25-Year Club of the Auburn School of Agriculture for 25 years of service to the University.

B. Campbell Blake has been installed as chairman of the advisory council for the Salvation Army Home and Hospital in Birmingham.

NEW ADDRESS: L. Jeff Miller, Santa Barbara, Calif.

'32 R. Platt Boyd, Jr., has joined the Auburn Industrial Engineering Department as an assistant professor. He retired from military service on Sept. 1, 1966. Col. Boyd's son, R. Platt, III, is an Auburn freshman in pre-engineering.

Ben B. Mabson, Georgia sales vice president of Vulcan Materials Co. Southeast division has been elected first president of the Georgia Crushed Stone, Inc., an organization of crushed stone producers. The company opened its headquarters in the Title Building in Atlanta in January.

George Robertson of Waverly has been elected historian of the Auburn and Opelika Chapter of the Sons of Confederate Veterans.

Mr. and Mrs. William H. Mims (Nelle Martin '34) of Auburn celebrated their 40th wedding anniversary on Nov. 15. The Mims returned to Auburn three years ago when Mr. Mims went to work with the Auburn University Department of Buildings and Grounds. Mrs. Mims teaches at Cary Woods School. The Mims' daughter Nancy '63 and her husband B. G. Walls live in Auburn where he is an associate professor in the music department and she is an instructor in the

Art Department. Their son William Edwin '63 and his wife Andrea Pollard '64 live in Jacksonville, Fla.

'33 Jesse D. Simmons is an architect with Alabama Power Co. in Birmingham.

Leonard S. Cook is president of Hulsey Concrete Products, Inc. in Chattanooga.

NEW ADDRESS: Marshall S. Caley, San Bruno, Calif.

'34 Joe J. Scherer and his wife Gladys '33 live in Pensacola where he is president of Scherer, Inc., a real estate firm.

NEW ADDRESSES: George T. Hurt, Hickory, N.C.; Alex McRae, Portuguese Bend, Calif.

'35 William B. Morland and his wife Frances live in San Gabriel, Calif. where he's in sales with Phillip Morris. His territory covers the ten western states plus Alaska and Hawaii. The Morlands have a son, Bill, Jr., and two little granddaughters, who live about 60 miles away in Riverside, Calif.

Dr. Karl Owens has been elected "Veterinarian of the Year" by the Florida State Veterinary Medical Association. Dr. Owens has been a general practitioner in Clearwater since 1945. After graduation from Auburn he was an instructor in anatomy here for a year then joined the Bureau of Animal Industry in Augusta, Ga., for two years. From 1938 to 1945 he was with the State Livestock Sanitary Board in Mayo,

Fla. Dr. Owens is past president of the Florida State V.M.A. and of the Southern VMA.

NEW ADDRESS: Miss Clarice M. Payne, Memphis, Tenn.

Alumni In The News

Thornton Hubbard

Melton D. "Moon" Thornton '31, Montevallo vocational agriculture teacher and legislative chairman of the Alabama Vocational Association, has been appointed to the State Education Study Commission. Mr. Thornton has completed 34 years as a classroom teacher. He is former president of the Alabama Vocational Association and a life member of the American Vocational Association.

J. R. Hubbard '39, Auburn University Extension poultry specialist since 1959, has resigned to join the Federal Extension Service. He will develop a broiler production program in Paraguay with the State Department's Agency for International Development. He is currently in Washington for several months of intensive training before going to Paraguay. Mr. Hubbard worked with the Auburn Extension Service for 28 years, beginning as an assistant county agent in Coosa County. He and his wife Jean will live in Asuncion.

Alumni In The News

Curtis

Odom

Benjamin P. Curtis '27 was recently honored by the Alabama Soil Fertility Society for his 40 years of service to agriculture while working with U.S. Steel's Raw Materials Division. Past president of the Birmingham Agriculture Club, Mr. Curtis belongs to the American Society of Agronomy, Soil Science Society of America, Alabama Cattlemen's Association and the Alabama Seedmen's Association.

Dr. Houston Odom '39 is the new assistant head of the North Carolina Agriculture Department's meat and poultry inspection service. He joined the North Carolina Agriculture Department as Charlotte area supervisor in 1963. He previously served 20 years with Army and Air Force as base and staff veterinarian. Dr. Odom and his wife Marguerite have one son.

FIRST SUCCESS—Peggy Sparkman has her first success in the career she hopes to follow as an illustrator after her graduation from Auburn next June. The Huntsville art student's work appears in the current issue of *Humanist*, a national journal of contemporary ethical concerns. Peggy's illustrations, two linoleum block prints and one India ink on rice paper, accompany the issue's special report: "The American Indian Today." The issue also includes a cartoon by Peggy's illustration professor, Brack Walker.

Faculty Authors Texts

An essay on *Beowulf*, a series of education textbooks, and an industrial engineering text comprise recent Auburn faculty publications. Dr. John Nist's essay, "Metrical Uses

of the Harp in *Beowulf*," is included in *Old English Poets—15 Essays* printed by the Brown University Press in honor of the University's 200th Anniversary. Dr. Nist, an Auburn professor of English, is a linguist and specialist in the history of English. The University of Texas Press published his *The Modernist Movement in Brazil* early in 1967. Dr. Nist came to Auburn two years ago following positions at Eastern Michigan University and at Austin College in Texas where he was chairman of English and Shoop Professor of English. He served as a Fulbright Lecturer at Universidade de Sao Paulo in Brazil and has held a research fellowship at Universidade de Brazil, Rio de Janeiro.

The Charles E. Merrill Co. has released five of a 12-book Foundations of Education Series edited by Dr. Ray C. Phillips with Dr. Robert J. Stalcup as co-editor. Dr. Phillips wrote *Evaluation in Education* of the series and Dr. Stalcup, *Sociology and Education*.

Dr. Phillips is an Auburn assistant professor of laboratory experience with the School of Education, and Dr. Stalcup is a former Auburn professor, now with the Education Commission of the States.

The education texts explore the aims, development, history, and philosophy of education. According to reviews, they "offer an up-to-date view of the penetrating insights that modern psychology has contributed to the teaching and learning process. They investigate the social climate and its influences on educational practices. They define and illustrate the complex, multiple roles

which the modern teacher must perform."

Dr. Grady Cox and Dr. Joe Mize are co-authors of *Essentials of Simulation*, published in December by Prentice-Hall. The book, which Dr. Mize and Dr. Cox have spent the past two years collaborating on, will be used as a text in Auburn industrial engineering courses. Dr. Cox is associate dean of the Auburn School of Engineering and former head of the Department of Industrial Engineering. Dr. Mize, an associate professor of industrial engineering, formerly directed the Auburn University Computer Center. He has done contractual research with the Marshall Space Flight Center, and is currently developing a production system simulator to be used in teaching production control, forecasting, and information systems. Simulators are a specialized type of computer program—a set of instructions to the computer describes a problem in terms the computer understands. The computer then solves the problem and responds with the necessary calculations. Thus a problem that would take a man making manual mathematical computations 150 years, day and night, seven days a week, can be done by a computer through a simulator in five minutes.

Essentials of Simulation is liberally illustrated with graphs and statistical tables. Problems at the end of major sections serve as exercises in the concepts covered. Solutions to the problems have been included as well as a listing of computer models and full bibliographical data.

COOPERATE WITH BUSINESS — Five Auburn seniors in industrial engineering and their professor, Dr. Charles R. White, toured U.S. Steel's Fairfield Works near Birmingham in November, and now three of them are working on a computer programming project with the company. Making the tour were Auburn students (first row), left to right, Richard Garwood, Charles Blackford,

Ronald Shorter (second row) Dennis Garrison, Robert Phillips, and Dr. Charles White. U.S. Steel hosts for the tour included (third row) Mike T. Blevins '43, John W. McLellan, superintendent of the Coke and Coal Chemicals Division, W. W. Fowler, (back row) Cecil L. Patterson, Conrad E. Adair, and W. F. Glasgow '42. The students toured the Coke and Coal Chemicals Division.

have two children, John B., and Tracy Ann. They live in Alexandria, Va.

J. Homer Blackstone has been honored by membership in the Auburn School of Agriculture 25-Year Club for 25 years service. He is with the Department of Agricultural Economics.

'39 Robert J. McClure, Jr., is with the Insurers Management Corp. in Birmingham.

Edwin C. Godbold received the doctorate from American University in Washington, D.C., in December. Dr. Godbold retired from the Marine Corps as a full colonel following 20 years of service and has since been with the Southern Regional Education Board in Atlanta, Ga.

J. Wallace Nall, vice president and general manager of the Birmingham fastener division of Lamson and Sessions Co., has been named group vice president for fastener divisions. He will have overall responsibility for the company's industrial fastener operations with plants in Cleveland and Kent, Ohio; Birmingham, and Chicago. Mr. Nall, his wife Catherine, and their son Wallace, Jr., will make their home in the Cleveland area.

'40 Dallas Benton and his wife **Elizabeth Rimes** '40 live in Birmingham where he is a partner in Cobb, Adams, Benton, Architects.

Maj. Gen. Elmer H. Almquist is commanding general for the U.S. Southern European Task Force with headquarters in Verona, Italy.

Ted W. Ham of Sylcauga, is treasurer of the Alabama State Board of Pharmacy.

William B. Carroll, is the new manager of the COMSTAT earth satellite communications station near Etam, W. Va. Mr. Carroll joined COMSTAT in July when he retired as a colonel from the Air Force after 27 years. Mr. Carroll and his wife Dorothy have three children: Sandra, 19; Robert, 17; and John, 14.

NEW ADDRESSES: Dr. **Clarence M. Wilson**, Stone Mountain, Ga.; Mr. and Mrs. **James Caraway** (Jean Woodham '46), New York, N.Y.; Lt. Col. **Moyer D. Harris**, Norman, Okla.

'41 Dr. John M. Lawrence, Auburn professor in the Department of Zoology-Entomology, has been honored by membership in the 25-Year Club of the School of Agriculture for 25 years service to the University.

Horn Samford

C. Fletcher Horn '40 has been promoted to executive vice president of operations for Celanese Fibers International Co. Mr. Horn had been executive vice president of Columbia Cellulose Co., Ltd., with headquarters in Vancouver, B.C. Prior to going to Canada in 1966, he was vice president of administration of Celanese Fibers Group Co. Mr. Horn, his wife, and two children live in Chappaqua, N.Y.

Yetta G. Samford, Jr., '48 of Opelika has been elected a director of WestPoint-Pepperell. Mr. Samford is a partner in the law firm of Samford, Torbert and Denson. He is a director of Liberty National Insurance Co., Farmers National Bank of Opelika, and Alabama State Chamber of Commerce. Mr. Samford is a trustee of Mobile College.

ALUMNALITIES—Continued

'36 Dr. Peyton C. Teague is professor of chemistry and associate dean of the Graduate School at the University of South Carolina.

NEW ADDRESSES: **George B. Hughey**, Decatur; **Col. Henry M. Renfro**, Palm Bay, Fla.

'37 Harold Benford, associate editor of *The Progressive Farmer*, retired Nov. 30. His home is in Birmingham.

DeWitt Vickrey, management agronomist with the Headquarters of the Second Air Force (Strategic Air Command) at Barksdale AFB, La., served as master of ceremonies at the annual meeting of the American Society of Agronomy Division A-2 land management, at the Army Navy Club in Washington, D. C. on Nov. 7. Mr. Vickrey was assistant county agent in Lowndes County from 1937-42 when he entered the Air Force. He retired as a reserve lieutenant colonel on March 1, 1967. He and his family live in Shreveport, La.

Mark R. Nichols, chief of the full-scale research division at Langley Research Center in New Port News, Va., has been honored with the Outstanding Leadership award "for pioneering achievements in the field of aeronautical research as related to the conception and development of advanced civil and military aircraft."

NEW ADDRESS: Mr. and Mrs. **William L. Stafford** (Hazel Avery '39) Cinnaminson, N.J.

'38 Mason Studdard is an appraiser with the Small Business Administration in Birmingham.

Col. John J. Powell, special assistant to the Director of the Walter Reed Army Institute of Research, received the First Oak Leaf Cluster to the Army Commendation Medal on Nov. 17. He received the decoration for his work as deputy assistant for Veterinary Services in the Office of the Army Surgeon General in Washington from 1965 to 1967. Col. Powell and his wife Betty

In Memoriam — '01 Through '63

Dr. Paul Shields Haley, '01 Auburn University's senior trustee and widely known community and church leader, died Jan. 31 of a coronary at a Birmingham hospital where he had been undergoing tests and treatment since early January. Dr. Haley had served on the Auburn Board of Trustees since 1917 and as the Board's vice president since 1947. His record of continuous service, believed unequalled in the nation, led to his designation as "Outstanding Trustee" by the Association of Governing Boards of State Universities and Allied Institutions in 1963. Dr. Haley was born in Marietta, Ga., in 1880 and moved three years later with his family to Jasper. He attended Jacksonville State before enrolling at Auburn where he was graduated with honors in 1901. During most of his life Dr. Haley served as a consulting civil engineer. He devoted much of his time to his church, community affairs, and Auburn which became his principal interest after his retirement several years ago. During his 51 years as a member of the Auburn Board of Trustees, Dr. Haley missed only one meeting and that was in 1920 when the board was meeting monthly. He was a member of the Board of Directors for the Wesley Foundation and served for 25 years on the editorial committee for the Methodist Conference Journal. He was a Mason and a member of the Alabama Historical Society. Dr. Haley received many honors. In 1961 Auburn conferred upon him the honorary Doctor of Science degree. In 1965 he accepted the Algernon Sydney Sullivan Award which is given annually to the two Auburn students and one alumnus exhibiting an outstanding spirit of helpfulness to others. The Legislature recently approved the naming of Auburn's largest educational facility, now under construction, for Dr. Haley. Dr. Haley was married to the late Grace Jeanette Woodhead of Bridgeport. Surviving are two sons, Lawrence B. '32 and Foster A. Haley, '48, both of Huntsville; two daughters, Mrs. Mildred Sutton of Birmingham and Mrs. Grace Thomason of Ft. Meyers, Fla., and several grandchildren.

Adolph Weil, Sr., '06, worldwide cotton dealer, died in a Montgomery hospital Jan. 4. Born in Opelika, he moved with his family to Montgomery in 1903. In 1907 he entered the cotton business with his father's firm Weil Brothers. He was board chairman of Weil Brothers Cotton, Inc., member of the New York Cotton Exchange, past president of the Atlantic Cotton Association, and past vice president of the American Cotton Shippers Association. He also served as director of the Birmingham Branch of the Federal Reserve Bank of Atlanta. A life member of the Auburn Alumni Association, he was Alabama member of the National Board of National Conference of Christians and Jews; member of the Board of Trustees of Southern Research Institute of Birmingham; and member of the Board of Trustees of National Jewish Hospital in Denver. He was advisor to the board of di-

rectors of Retarded Childrens School and administrative advisor to Spastic Childrens Association, now known as Children's Center. Survivors include two sons, Adolph Weil, Jr., and Robert S. Weil, both of Montgomery; two daughters, Mrs. Myron J. Rothschild (Carol) of Montgomery, and Mrs. Hugh Uhlmann (Helen Jane) of Kansas City, Mo.; a brother, Leonel Weil, of Montgomery; and a sister, Mrs. Lucian Loeb of Montgomery.

Dr. John Sydney Cook, D.V.M. '14 of Union Springs died in late December. Dr. Cook was well known throughout Bullock County and Alabama for his efforts in health. He was largely responsible for gaining at Union Springs the first meat and milk inspection in the state. He also served as assistant state veterinarian for four years. Dr. Cook was treasurer of the Bullock County Hospital Board, a member of the Alabama and American Veterinary Medical Associations, and a member of the Board of Examiners for the State Board of Veterinarians. Survivors include his widow, Mrs. Foy Cade Cook of Union Springs; three sons, John Sydney Cook, Jr., '39 of Auburn; Dr. Malcolm C. Cook '43 of Birmingham, and Alfred F. Cook '50 of Union Springs.

William Reese Dillard, Sr., '16, a native of Washington, Ga., died Nov. 24 in Tulsa, Okla., after a long illness. Dr. Dillard attended Staunton Military Academy, the University of Georgia, Auburn, and Cornell University where he was awarded a civil engineering degree in absentia while serving overseas in WWI. At the conclusion of the war he remained in Europe two years with the American Relief Administration. He moved to Tulsa in 1920 where he was associated with the U.S. Geological Survey for several years. Later he was an independent geologist, continuing this practice until a few months before his death. The U.S. Geological Society has published a number of pamphlets written by Mr. Dillard. He was past president of the Tulsa Geological Society. He was also a member of the American Association of Petroleum Geologists and a charter member of the Petroleum Club. Survivors include his widow, Katherine; a son, William R. Dillard, Jr., of Tulsa; two sisters, Mrs. Lucy Ficklen of Washington, Ga., and Mrs. Mary Nettles of Homestead, Fla.

Gurley E. Burgin '18 died in a Birmingham hospital Dec. 2. He is survived by his wife, Mrs. Pauline G. Burgin; two sons, John E. Burgin '55 of Demopolis, and William C. Burgin '55 of Baton Rouge, La.; and one brother, John P. Burgin of Gardendale.

Upshaw Franklin Gibson '19 of Tifton, Ga., died Nov. 29. He was a defensive end on the Auburn football team of 1918. Survivors include four brothers, Dan D. Gibson '15 of Auburn; Dr. E. L. Gibson of Enterprise; Dr. T. Barren Gibson of Canton, Ga.; D. F. Gibson of Jessup, Ga.; and two sisters, Mrs. Leona Bozeman and

Mrs. Pearl Smith, both of Enterprise.

Jack M. Linx '21 died in late November after several months of failing health. A native of Birmingham, he was active in the Auburn band and assisted band director P. R. Bidez. After leaving Auburn he had an orchestra in Birmingham and later formed another orchestra in New York City, and played with various musical groups. He studied oboe under Anton Maly, and was a good friend of Bruno Labate. Several years ago he took over a musical supply house, operating it under the name of Linx and Long, importing musical instruments and supplies. Mr. Linx is survived by his wife.

Franklin M. Stewart '23, of Hope Hull died in a Montgomery hospital Jan. 19. Mr. Stewart, who suffered an extended illness, served as Alabama Agriculture Commissioner in 1951-54. He previously was assistant commissioner, and also served as executive secretary of the Alabama Milk Control Board from 1935-43. During his period with the milk board, Mr. Stewart was elected president of the International Association of Milk Boards. Since ending his term as agriculture commissioner, Mr. Stewart has been president and manager of Builders' Supply Co. of Montgomery. Surviving are his widow, Mrs. Effie Williams Stewart of Hope Hull; son, Frank McLean Stewart, Jr., '56 of Montgomery and three grandchildren.

Henderson L. Holman, Jr., '24, Ozark architect, died in downtown Ozark Dec. 27 of an apparent heart attack. A life long resident of Ozark, Mr. Holman did graduate work at Massachusetts Institute of Technology after receiving a degree in architecture from Auburn. He had his own architectural firm in Ozark and had designed building for both Auburn and the University of Alabama. Mr. Holman was a member of the American Institute of Architects and was active in the Ozark Kiwanis Club. He served as governor of the Alabama District Kiwanis International in 1964. He is survived by his widow, Mrs. Rhoda Pfohl Holman of Ozark; two daughters, Mrs. Rhoda Holleman of West Lafayette, Ind., and Mrs. Martha Wright '55 of Dalton, Ga.; a son, Henderson L. Holman, III, of Ozark; two sisters, and four brothers.

Charles Edward Shaffer '25 died Jan. 11 in a Birmingham hospital. He is survived by his wife, Mrs. Mary Colgan Shaffer; three sons, Charles Edward Shaffer, Jr. '60, James G. Shaffer, both of Birmingham; William C. Shaffer '64 of Opelika; one daughter, Miss Mary Catherine Shaffer of Birmingham; two brothers and one sister.

Rowe Johnson '27 of Douglasville, Ga., the oldest of seven brothers to graduate from Auburn, was killed Jan. 8 in an automobile accident. Mr. Johnson had a varied career and once worked in experiments leading to

coloring oranges. Previously most oranges went to market green. Mr. Johnson was a real estate agent at the time of his death. He served with the Army in WW II and attained the rank of major. He taught vocational agriculture in Weogulfka, Brundidge, and Georgiana, worked as an appraiser for the Federal Land Bank and Regional Agricultural Credit Corp., worked with the U.S. Department of Agriculture as a market inspector at the New York Produce Market, and with the Japanese beetle control at Raleigh, N.C. Mr. Johnson is survived by a daughter, Mrs. Gerald A. Walraven (Elizabeth Ann Johnson '60) of Montgomery; seven brothers, Herman Johnson '28 of Atlanta; Thomas G. Johnson '32 of Asheville, N.C.; Oel Johnson '33 of New York City; William Otis Johnson, Jr., '34 of Norfolk, Va.; John Willis Johnson '41 of Goshen, Ind.; James A. Johnson '52 of St. Paul, Minn.; and Levi H. Johnson of Birmingham; three sisters, Mrs. J. L. Adams of Alexander City, Mrs. J. G. Courtney of Opelika, and Mrs. J. Gregory of Alexander City.

Maj. John H. Weaver (Ret.) '28 of Mableton, Ga., died Nov. 24 in an Atlanta hospital after a long illness. Surviving are his widow, Kathleen H. Weaver; daughter, Mrs. Patricia Anne Marsh; son, Quinton P. Weaver; three children grandchildren; and sister, Miss Claudia Weaver.

Marcus S. (Buck) Moore '30 of Ormand Beach, Fla., died recently in a Halifax hospital after a lengthy illness. An avid sportsman and civic leader, he contributed much of his time to community affairs. He helped promote convention business in the Daytona Beach area as vice president of the Daytona Beach Convention Bureau. He had served as president of the Daytona Beach Symphony Society and was a member of the National Council of the USO. He was a director of the Daytona Beach Rotary Club and a member of the Civic League of the Halifax Area. He also served as vice president of the Daytona Beach Area Chamber of Commerce. Mr. Moore had been Southern Bell Telephone and Telegraph district manager for nine years. Mr. Moore is survived by his widow Angela McGuire Moore; a son, Dr. Marcus M. Moore of Fort Myers; and a daughter, Mrs. R. E. Lenholt (Mary Locklin Moore) '57 of St. Petersburg.

Robert Martin Wilbanks, Jr., '30 of Birmingham died during August according to recent information. He is survived by his widow, one son, one daughter, and his mother.

William H. Eagar, Jr., '31 of New Orleans died in November. He is survived by his widow, one daughter, three grandchildren; brother, Lt. Col. Thomas N. Eagar '34 of Auburn; and sister, Mrs. Nancy Eagar Whitman '42 of Broomfield, Colo.

Harold L. Hubbard '31 of Webster Grove, Mo., died Dec. 30 after a short illness. A native of Anniston, Mr. Hubbard was a research manager for the Organic Division of Monsanto Chemical

Co. in St. Louis, Mo. Survivors include his widow, Mrs. Marie Hubbard, of Webster Grove; one son, Richard Hubbard of Chicago; one daughter, Miss Mary Lou Hubbard of Mobile; mother, Mrs. B. F. Hubbard; one brother, Findley Hubbard '28 of Anniston; and one sister, Mrs. Lynn Walsh of Decatur, Ga.

Eugene D. Hess '33 of Auburn died Jan. 20 in Lee County Hospital. A native of Louistown, Mo., Mr. Hess had resided 36 years in Auburn. He was a retired speech professor. Survivors include his widow Mrs. Bertha Reed Hess.

Harry C. Orme, Jr., '34 of Atlanta died Dec. 5 according to recent information. Mr. Orme practiced law in Gadsden for several years and was named judge of the 16th Circuit Court of Etowah County in 1953. At the time of his appointment he was president of the Etowah County Bar Association. In 1963 he was named regional counsel for Region V of the Small Business Administration which covers Alabama, Florida, Georgia, Mississippi and Tennessee and moved to Atlanta to assume the office. Among his survivors is his son Harry C. Orme, III, '62.

James F. Thompson '34 of Moorestown, N.J., formerly of Birmingham, died in early January. He is survived by his wife, Mrs. Harriett Humphries Thompson; one son, James F. Thompson, Jr.; one daughter, Miss Juliet Thompson; all of Moorestown, N.J.; two sisters, Mrs. Ernest L. Lloyd and Mrs. Hayden L. Alford, both of Birmingham.

William Augustus Threadgill '35 of Carbon Hill died of a heart attack on Jan. 16. Among his survivors are his widow, and a son and daughter now in college at Auburn.

Marian DeKalb Harman '36 of Mobile died in a local hospital Jan. 20 after a short illness. He is survived by two sons, Sgt. A. F. Harman of Amarillo, Tex., and Marian D. Harman, Jr., of Cottonport; a brother Arthur F. Harman '25 of Wainsboro, Va.; and seven grandchildren.

William J. Brennan '39, multi-millionaire radio station owner, died Nov. 29 in the crash of his private jet in the back yard of a home near the Orlando, Fla., airport. Brennan was piloting the plane. Killed with him were his private secretary and his Miami attorney. Mr. Brennan was president of WBAM radio in Montgomery, a stockholder in WSLA-TV in Selma, WAPE in Jacksonville, Fla., and WFLI in Chattanooga. He supervised family interests in WVOK in Birmingham. He was also president of Jet International Corp., an aircraft charter and leasing service with headquarters in Atlanta. Survivors include his widow, Mrs. Frances Brennan of Montgomery; three sons, W. J. Brennan, Jr., Robert Gill and Richard Grey Brennan, all of Montgomery; four daughters, Mrs. Barbara Brennan Royal '65 of Atlanta, Mrs. Susan B. Smith of Albuquerque, N.M., Miss Frances Elaine Brennan and Miss Cindy Renee Brennan, both of Montgomery; two brothers and two sisters.

(Continued on page 9)

Roy Patents New Process

Progress in developing an economical treatment to purify water from industries that pollutes the nation's rivers has been slow, but Dr. Clarence H. Roy '51 has built a machine he says will halve the cost of treating the polluted water. The experimental machine, called "Rasur" by its inventor (for Royal Advanced Separation and Recovery), will remove metal from one to ten gallons of water a minute, depending on the metal being extracted. Bigger versions of the machine can purify many times this amount. After the water goes through the machine it can be re-used by the industry or emptied into a river. However, Dr. Roy does not think the water safe to drink.

An all-electrical device, the machine uses a chemical process to extract the metals. As it uses

no settling tanks, the rasar requires about one-tenth the space of the present systems. The one-unit machine will remove metals from the waste waters of the cyanide electroplating of gold, silver, copper, zinc, and cadmium. Dr. Roy says the process, currently being patented, also will remove nonmetallic substances such as cyanide, chloride, and bromide.

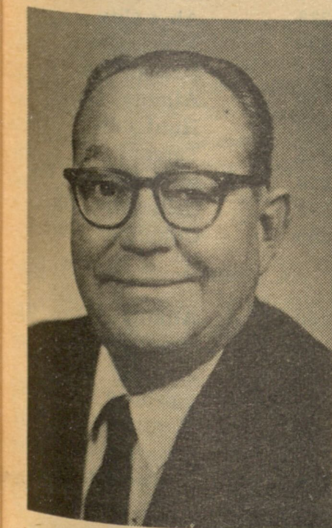

The development of the rasar has been Dr. Roy's main labor since he started his own laboratory, Royal Industrial Research Co., in Seymour, Mass., in 1966. Before forming his own company, Dr. Roy worked as research director for MacDermind, Inc. of Waterbury, Conn., a manufacturer of metal finishing supplies. He is the former assistant head of the chemistry department at Spindletop Research Lexington, Ky. He has also been a research chemist with Proctor and Gamble.

TAYLOR JOINS ALUMNI STAFF

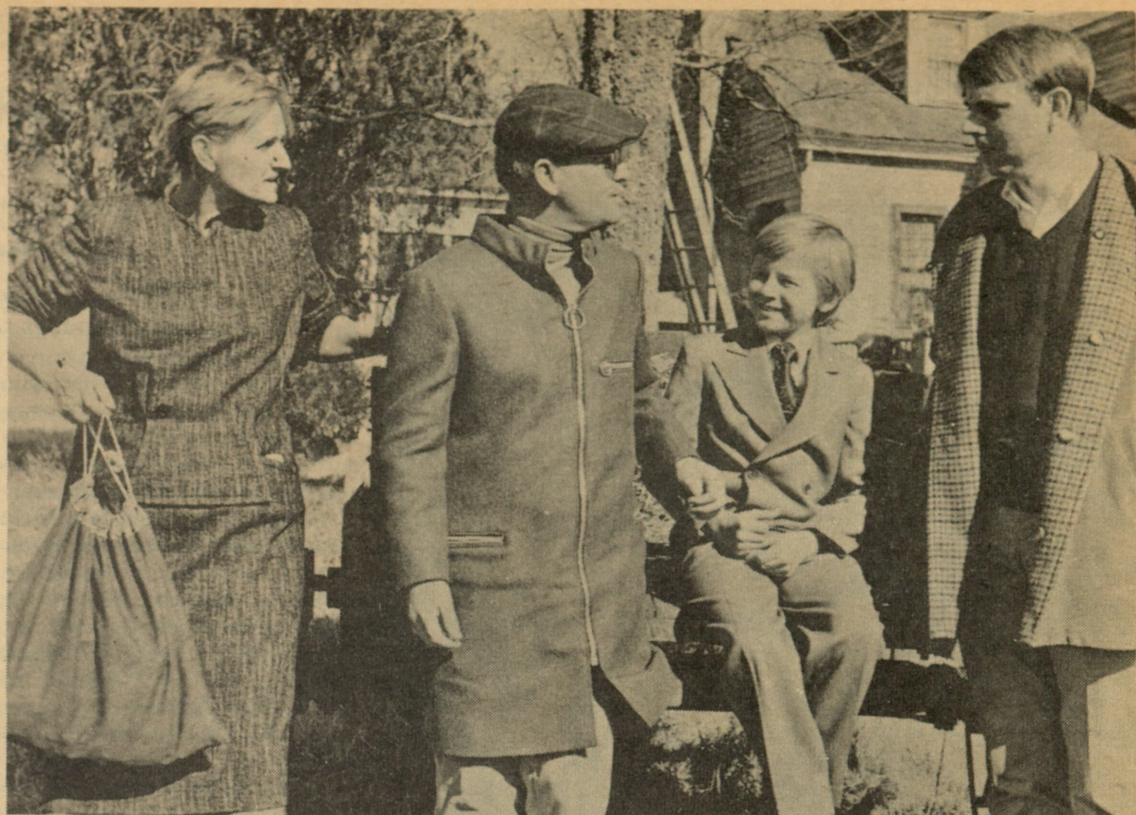

Retired Army Col. Kenneth G. Taylor '34 has joined the Auburn Alumni Association as administrative assistant, taking over annual giving duties formerly done by Fowler Dugger, Jr. Mr. Dugger became director of news and publications for St. Andrews Presbyterian College in Laurinburg, N.C.

Col. Taylor moved to Auburn following his retirement June 30, 1966, where he resumed studies in economics and business administration. Col. Taylor holds the Legion of Merit, the nation's second highest military honor for service, which he received for exceptionally meritorious service from September 1957-June 1966. During this time he served successively as assistant executive officer, and later as chief of the Far East-Pacific Division, Office of International Affairs, Office of the Assistant Secretary of the Army. Col. Taylor also served as Army Attache to Belgium, and Chief of the Military Personnel Division, Office of the Deputy Chief of Staff for Personnel at the Headquarters of the Sixth U.S. Army in Presidio, Calif.

Col. Taylor entered the Army during WW II after working as an engineer with the Alabama State Highway Department. He is married to Elizabeth Fletcher '37, and they have two daughters, Nancy of Suitland, Md., and Charlotte of Washington, D. C.

K. G. Taylor '34

THE THANKSGIVING VISITOR — Author Truman Capote, second from left, chatted with the cast of his "The Thanksgiving Visitor," filmed near Montgomery in December. Mrs. Eleanor Whitelaw '36, an Auburn ETV producer-director, played the mule lady in the film which will be televised

next year. Jimmy Sellars, right, an Auburn graduate student in art, worked as assistant to the art director and set director for the Capote film. Jimmy does all the art work for the Auburn ETV studio. Little Michael Kearney, second from right, played Buddy, the young Capote, in the film.

ALUMNALITIES—Continued

Alabama Air National Guard Maj. Gen. **Reid Doster** has resigned as commander of the 117th Tactical Reconnaissance Wing. Gen. Doster will continue to command the Alabama Air Guard, however.

J. Lem Lovvorn is principal of Friendship School near Anniston.

NEW ADDRESS: The Rev. **Daniel K. Christenberry, Jr.**, Montgomery.

'42 George E. Fowler is supervisor of the Atlantic region for the Plant Quarantine Division of the USDA. His territory covers 25 states and Bermuda with headquarters in New York City. Mr. Fowler and his wife Virginia live in Florham Park, N.J.

Dr. **Henry P. Orr**, professor of ornamental horticulture at Auburn, was an instructor for the Landscape Design Study Course II sponsored by the Garden Club of Alabama, Inc., in Birmingham in January.

Edgar C. Gentle, Jr., has had his textbook, **Data Communications in Business—An Introduction**, published in Japanese. The English version is now going into its fourth printing and some 65,000 copies have been sold since its publication two years ago. Some 8,000 copies of the Japanese language edition have been published. Mr. Gentle is new services coordinator with American Telephone and Telegraph Co. in New York City.

Gus Young of Graham has received the 1967 Rehabilitation Achievement Award. He has also been appointed a director of the Alabama Mental Health Association.

Thomas W. Underwood teaches in Foley.

NEW ADDRESSES: **Avis Margaret Middleton Waldrop**, Houston, Tex.; **William H. Harwell**, Greensboro, N.C.

'43 James E. Bowman is a soil scientist with the Soil Conservation Service at Union Springs, Ala.

J. B. Faulkner, principal of Hayden High in Blount County, has recently set what may be a record in tenure. He has spent 40 years teaching in Blount County and 39 of those years as principal of Hayden High.

Dr. **W. J. Isbell, Jr.**, has joined the staff of the Southern Baptist Brotherhood Commission in Memphis. Dr. Isbell was secretary of the Brotherhood department of the Alabama Baptist State Executive Board in Montgomery until he resigned last May to become an executive of an insurers' management company in Birmingham. Dr. and Mrs. Isbell have two children, Cissy and Jay, both students at Samford University.

Helmut Thielsch, manager of the research and development division of Grennell Corp. spoke to the Alabama Chapter of the American Society of Mechanical Engineers meeting in Birmingham in November.

MARRIED: **Jeanette Knapp Watts** and **William August Hohlweg** on Dec. 17 in Bogota, N.J.

NEW ADDRESSES: Dr. **Ray R. Cowart**, Baton Rouge, La.; **Hubert H. Creel**, Fort Myers, Fla.; Lt. Col. (Ret.) **James T. Staples**, Eau Gallie, Fla.; Col. **Frank B. Morris, Jr.**, Torrance, Calif.; **Ross Martin, Jr.**, Anniston.

'44 Dr. Francis L. Thomas is heading Tennessee's new meat inspection program operated by the U.S. Department of Agriculture and the State. In 1966, Dr. Thomas received a certificate of merit for outstanding performance of his duties from the USDA. He is a member of the American Veterinary Medical Association and the National As-

sociation of Federal Veterinarians. Dr. Thomas, his wife Erna and their two sons will make their home in Nashville.

Mary Hazel Ford Moon and her family are back in Brazil where her husband Lloyd is with the Baptist Mission at Belem. The Mocns' son Jimmy is doing tenth grade work by correspondence from the University of Nebraska Extension and supervised by the Amazon Valley Academy. Joel and John are attending fifth and sixth grade classes at the nearby Episcopal mission school.

'45 Dr. Robert S. Sharman, in charge of the USDA Animal Health Division work in

Mexico City, headed a group of 12 U.S. veterinarians who went to England in December to help control the outbreak of foot and mouth disease. Dr. Sharman participated in the U.S.-Mexico program to eradicate foot and mouth disease from Mexico. Two other Auburn alumni with the USDA were with the group sent to England. They were Euclid Sharman '53 of Hyattsville, Md., and Maurice Mixson '57 of Montgomery.

Col. **Woodard E. Davis, Jr.**, commands the 12th Tactical Fighter Wing at Cam Rahn Bay AB, Vietnam.

Edwin R. Goode, deputy ad-

In Memoriam

(Continued from page 8)

Henry Edward Kelly '39 died Dec. 5 in Denver Colo. He is survived by his widow Mrs. Evelyn Kelly; two sons, Pat and Danny Kelly, all of Denver; one daughter, Mrs. Jeanene Pierson of Texas; parents, Mr. and Mrs. Walter S. Kelly of Center Point; four sisters, Mrs. Mary Brown of Clanton; Mrs. Susie Banks of Birmingham; Mrs. Dorothy Layton of Birmingham, and Mrs. Maoline Woolwine of Center Point; three brothers, Scotty and William Kelly of Birmingham and Gordon Friday of Birmingham.

Douglas L. Jarrard '40 of Pike Road died unexpectedly recently. Surviving are his mother, Mrs. Madge E. Jarrard of Pike Road; a sister, Mrs. Madge J. Correll '44 of Pike Road; and a niece, Miss Madge V. Sorrell of Montgomery.

Lelias Stephens Stringfellow '46 of Gadsden died Dec. 8. Survivors include his widow, Mrs. Margaret Snead Stringfellow '46; one daughter, Caroline Stringfellow; four sons, Steve, Timothy,

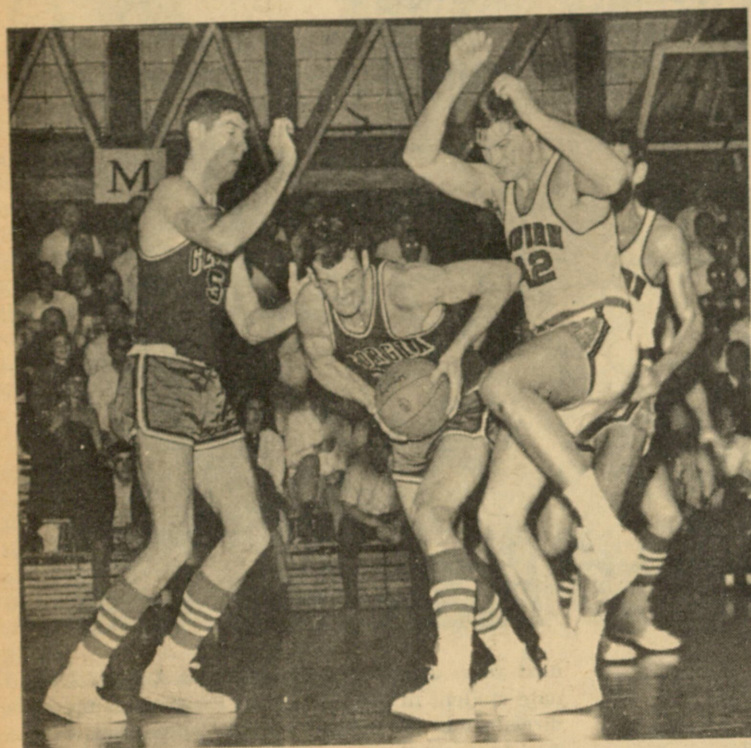

Mark, and Shane Stringfellow, all of Gadsden; parents, Mr. and Mrs. Harley H. Stringfellow of Birmingham; one sister, Mrs. Frank Eley of Huntsville.

Gene Hayes Lee of Route 2, Leeds, died Dec. 7 in Jackson, Miss. He is survived by his wife, Mrs. Betty Lee; three daughters, Mrs. Susanne Lee Glenn, Miss Jean Hayes Lee, and Miss Barbara Gail Lee; parents, Mr. and Mrs. W. L. Lee, Sr., all of Leeds; three brothers, and one sister.

Albert Montgomery Lokey '49 of Wilsonville died Dec. 16 in a local hospital. A life-long resident of Wilsonville, he was a retired sergeant in the Army Reserve and chairman of the Soil Conservation District of Shelby County. Survivors include the widow, Mrs. Frances Kuzmicki Lokey '50; a son, Albert M. Lokey, Jr.; a daughter, Miss Frances Elayne Lokey; mother, Mrs. O. Lokey, and two sisters.

Mrs. Trudie Jenkins Gower '63 died April 2 in LaGrange, Ga., according to recent information.

Close Margins Marking Tigers' Court Season

FRUSTRATION PERSONIFIED—Bill Alexander's expression seems to reflect the frustration that has dogged the Tigers through the current season—some close wins and some heart-breaking losses. Though Ray Jeffords of Georgia came up with the ball here, Auburn went on to a 62-56 win, avenging a 76-75 loss earlier in Athens.

ALUMNALITIES—Continued

ministrator with the Agricultural Research Service in Washington, D.C., was a guest speaker at the 38th annual meeting of the Florida Veterinary Medical Association in October. His classmate Dr. **James O. Whidden** of Jacksonville was elected treasurer of the group.

'46 CLASS RING: Mr. J. E. Newton of Russellville has found an Auburn class ring which he would like to return to its owner. The ring is inscribed with the date 1946 and initials, J. L. W., Jr. The owner may contact Mr. Newton at Box 246, Russellville.

James O. Davis, Jr., a practicing attorney in Tampa, Fla., has been named chairman of the standing committee on admiralty and maritime law of the American Bar Association.

James R. Quillin who has been in charge of the chemistry supply store at Auburn University since 1948 was honored by St. Michael's Church on Jan. 14 for his many services to the church and other Catholic churches in the Auburn-Opelika area.

'47 Harry Nelson is president of the Citizens Bank of Eufaula.

John E. Williams, NASA engineer at the Manned Spacecraft Center in Houston, Tex., has recently purchased The Jewel Box, jewelry store located in Pearland, Tex.

Harold E. O'Kelley has been named vice president of operations of Radiation, Inc. of Melbourne, Fla. Mr. O'Kelley joined Radiation in 1957 and has held succeeding higher management positions. He was formerly vice president and general manager of the firm's largest operating unit the systems division. Mr. O'Kel-

ley and his wife Sarah, live in Indiatlantic with their children: Sarah, 16, Ellen, 14, Shannon, 8, and Harold, Jr., 9 months.

Dr. **Gerald Naylor**, associate professor of biology at Carson-Newman College, has received a \$2,000 grant from the National Science Foundation to continue a research program in pollen started in 1964. Dr. Naylor did undergraduate and masters work at Auburn. He holds the B.D. from Southeastern Baptist Seminary and the Ph.D. in biology from North Carolina State.

Walter J. Wright, Jr., has been named Muscogee County, Ga., administrator. A retired Navy commander he had been assistant cashier at the Fourth National Bank in Columbus.

'48 Thomas J. Sellers, Jr., former associate editor of the Columbus, Ga., **Ledger** began duties as science editor at Emory University on Jan. 8. Mr. Sellers recently spent nine months at Emory on a fellowship to study science and medical writing. His science beat will cover Emory's Woodruff Medical Center and related areas where hundreds of research projects are conducted. Mr. Seller's career includes two years with the Associated Press in Birmingham and New York City. For a year (1956-57) he was city editor of the **Montgomery Advertiser**. Mr. Sellers first joined the **Ledger** in 1950 and worked on the Phenix City vice cleanup story that brought a Pulitzer Prize to the paper. Mr. Sellers and his wife Evelyn have four children.

Jesse Culp, well-known North Alabama agricultural specialist and publisher of the **Sand Mountain Reporter**, was commencement speaker at the January graduation at Jacksonville State University.

By **BUDDY DAVIDSON '64**

AU Sports Publicist

As the **Alumnews** goes to press the Auburn Tigers basketball team has six games to go in an up-and-down season. Most of the games Auburn has dropped have been heart-breakingly close to wins with only a few points difference when the buzzer sounded. In Auburn's most recent game the Tigers fought off a late Mississippi State rally and pulled to a 74-72 Southeastern Conference win following a previous one point loss, 64-63, to Alabama. Other big late season games included the Auburn victory over Pete Maravich and the LSU Tigers the week before. Auburn now stands 5-7 in the SEC and 10-10 overall.

In the Mississippi game, the Tigers were in control practically the whole game. Midway the second half Auburn led 54-40. Then the Bulldogs warmed up and tied the score with less than a minute to play before Auburn went ahead to win.

Alabama's Mike Nordholz made the three point play in the final 20 seconds of the close game which earned Alabama a victory over Auburn.

For Coach Bill Lynn the current season has been puzzling and frustrating: "We play every team really close all the way, but we just can't win enough of those close ones. We had a great victory over Kentucky, then went on the road and lost to Georgia and Florida by two and five points and we led most of the way in those two games. We beat LSU at home and then lost to Alabama in a real close game.

"We've played five nationally ranked teams and have been in the games all the way. We've also done a fine job on all of the big men we've played. We're playing good enough to win for 35 minutes a game, but," he adds,

Kelley Posts New AU Indoor Record

Auburn's Vic Kelley turned in a stellar two-mile run of 9:14.4 to win from a strong field in the Tennessee-Florida-Auburn triangular indoor track meet. Kelley's time is the best ever indoors by an Auburn runner and one of the best recorded in the nation this winter.

Mickey Jones won the triple jump for Auburn. However, Tennessee won the other 15 first places and easily beat Auburn and Florida.

The SEC indoor meet will be held in Montgomery on March 2 and Tennessee, Auburn, and Florida are expected to battle it out for the championship.

Lt. Col. **Ellis E. Stanley** commands the 71st Fighter-Interceptor Squadron 328th Fighter Wing at Richards-Gebaur AFB, Mo. The 328th recently flew four supersonic F-106 Delta Dart fighter-interceptors nonstop from Kansas City, Mo., to Elmendorf AFB, Alaska. The 2,800-mile flight marked the first time aerial re-

(Continued on page 11)

"in those other five minutes we are getting beat."

Junior forward Wally Tinker leads the Tigers in scoring and field goal accuracy. Tinker is scoring 16.3 points per game and hitting .521 per cent of his field goals. The team's most accurate free throw shooter is Alex Howell, hitting .816 per cent. Tom Perry leads in assists and Bill Alexander leads in rebounds.

The Tigers are currently 13th in the nation in field goal accuracy as a team. However, they are hitting a poor percentage from the foul line and at least six of the ten losses have been

the direct result of too many missed free throws.

The Auburn won and lost column for the season looks like this:

AU	70	Citadel
	65	Vanderbilt
	66	Wake Forest
	63	Georgia Tech
	73	St. Bonaventure
	70	Rutgers
	65	Arkansas
	68	Oklahoma City
	76	Virginia Tech
	72	LSU
	90	Ole Miss
	62	Mississippi State
	65	Vanderbilt
	74	Kentucky
	74	Georgia
	60	Florida
	62	Georgia
	74	LSU
	63	Alabama
	74	Mississippi State

'68 Frosh Prospects Bright

With 34 signees already in the fold, Auburn should have a balanced freshman football team in 1968. Usually one or two positions will be very strong and one or two positions rather weak on the freshman teams because of the cycles of recruiting or the current available crop. However, this year Auburn has signed five ends, 15 linemen, seven running and defensive backs, and six quarterbacks.

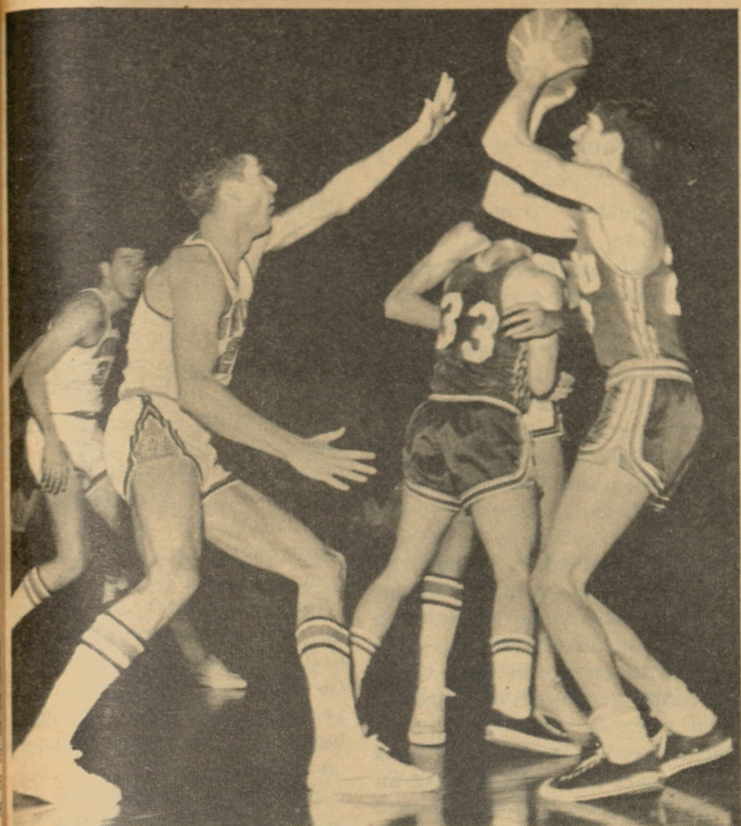

In addition John Riley, the kickoff specialist on the 1967 varsity, has been signed to a grant-in-aid, and two members of Lannier's State Championship team

from Montgomery, Jimmy and Tommy Lowder will play football for Auburn. Jimmy, a halfback was a first team All-State selection and was recently named three prep All-America teams.

The two latest signees are Larry Hill, a 6-1, 235-pound line backer from Alexander City and Gary Robinson, a 6-0, 200-pound linebacker from Butler High Huntsville.

AUBURN SIGNEES

Name	Hgt.	Wgt.	Hometown

HOW DO YOU STOP HIM?—Tom Perry (21) tries to defend against LSU's talented Pete Maravich (23) shown here firing away for part of a 49-point total for the night. Player in the background is Auburn's Ron Jackson. Despite Sophomore Maravich's sensational floor play and shooting, Auburn posted a 74-69 win to ease the sting of an earlier 76-72 loss in Baton Rouge.

AU Awards Letters To 59

Twenty-five seniors, 14 juniors and 18 sophomores received Auburn varsity football letters for 1967. In addition, managers Robert Rigsby and Mike Nix received letters to make the total of 59.

Football letterman include: Seniors: Bucky Ayers DHB, Forrest Blue OC, Jimmy Carter DHB, Tommy Groat DE, Gusto Yearout LB, Robert Margeson LB, Don McCay LB, Marvin Tucker DHB, Hank Hall DHB, Lee Kidd FB, Jim Bouchillon DE, Charles Collins DT, Roy Tatum DT, Richard Wood DT, Doug Sull DT, Richard Plagge TB, Larry Hagan OT, Charlie Glenn OG, Ken Jones OG, Freddie Hyatt SE, Mike Perillard TE, George Davison WB, Sam Nader QB, and Tommy Lunceford SP.

JUNIORS: Bobby Wilson DHB, Terry Brennan DE, Dwight Hurston TB, Al Giffin FB, Larry Ellis FB, Jerry Gordon OT, Bucky Howard OT, Dick Pittman OG, Ray Chadwick OG, Phillip Martin OG, Tim Christian WB, Loran Carter QB, Larry Blake-neey QB, and Jimmy Jones SP.

SOPHOMORES: Mike Kolen LB, Mike Holtzclaw LB, Ron Yarbrough LB, Sonny Ferguson LB, Buddy McClinton DHB, Don Webb DHB, Merrill Shirley DHB, Bill James DE, Harold Ham DE, David Campbell DT, Jim Sam-ford DT, Mike Currier TB, Tom Banks OC, Richard Cheek OT, Tim Lyle O, Mike Shows SE, Connie Frederick TE, and John Riley SP.

MANAGERS: Robert Rigsby, Mike Nix.

ALUMNALITIES—Continued

fueling was used in deploying the 1,400-mile-per-hour fighters outside the continental United States. Col. Stanley and his wife Martha Jo have two children, Sheryl, 18, Frank, 15.

E. Barrett Foster is a consulting electrical engineer in Sheffield.

Versal Spalding has been named director of ordinary agents for Liberty National Life Insurance Co. in Birmingham. Mr. Spalding has been in the insurance business for 16 years, the past 13 years with Vulcan Life and Accident in Birmingham.

'49 Robert B. Janney, Jr., is now director of Bama Mfg. of the Bama Company division of the Borden Co.

Leon A. Blackmon received a promotion to lieutenant colonel with the Air Force in November. He is a controller stationed with the 97th Bombardment Wing at Blytheville AFB, Ark.

Heyward Taylor presented a paper at the 14th Congress of In-

ternational Union of Forest Research Organizations (IUFRO) at Munich, Germany, in September. His paper concerned engineering systems for direct seeding operations in the Southern United States.

Lt. Col. Richard E. Benson is stationed with the Air Force in Germany.

Lt. Col. Charles S. Moody, Jr. is at the Army War College in Carlisle Barracks, Pa.

MARRIED: Ann Hussey Caudle to Jack B. Barton in Auburn on Dec. 20. Mrs. Barton is head of family life and early childhood education in Auburn's School of Home Economics. Mr. Barton is president of Bev Rich division of Royal Crown Cola in Columbus, Ga.

BORN: A son, George Harold, to Mr. and Mrs. George Harold Talley (Betty Lou Faust '51) of Cleveland on Nov. 26. George Harold joins twin sisters Jean and Jane, 15, and Debra, 12.

Sports Announcer Rutledge Dies

George M. "Buddy" Rutledge, sports director of WAPI and WAPI-TV of Birmingham and Auburn sports broadcaster, died Feb. 4, apparently of a heart attack. Five times named Alabama's "Sports-caster of the Year," Mr. Rutledge was the voice of Auburn University sports, broadcasting its games over a 50-station radio network in the Southeast.

Few of the listeners and watchers who enjoyed Mr. Rutledge's relaxed but authoritative broadcasts knew that he had been crippled by polio since 1950. At that time he had completed an outstanding football career at Anniston High and had been recruited by the University of Georgia where he was a student.

He became sports director of WAPI in 1960 after holding a similar post with WHMA in Anniston. Mr. Rutledge was president of the Birmingham Lay Diabetes Society, although not a diabetic himself and was leading the campaign for the new diabetic hospital in Birmingham.

He is survived by three daughters, Susan Lane, Martha Lynne and Lisa Ann Rutledge; mother, Mrs. Joe Henry Rutledge of Anniston; brother, William Eugene Rutledge of Birmingham, and sister, Mrs. Martha Jo Stephens of Columbus, Ohio.

Wrestlers Take Eight Matches

After dropping its first dual match of the season to VPI, Auburn's wrestling team has now won eight straight matches and again appears to be the favorite in the SEIWA tournament.

Bill McKeand, Dewitt Starnes, Eddie Dyer, Chuck Weiss and Tom Gambill have been the team's most consistent performers.

Harold teaches vocational agriculture at Cleveland High. . . . A son, John, to Mr. and Mrs. **Jim Pyle** of Cocoa Beach, Fla., on Nov. 21. He joins a big brother and sister. Jim is with Boeing on the technical integration and evaluation program of Apollo at Cocoa Beach.

'50 Lt. Col. John M. Norton, stationed with the Department of the Army in Washington, has been selected for membership in Beta Gamma Sigma, of College of Business Administration at Syracuse University. Membership in the honorary is the highest scholastic honor a student in business administration can attain.

Maj. Charles L. Holley has retired from the Air Force after 23 years of duty. He served as a logistics officer at Barksdale AFB, La., prior to his retirement.

Fred A. Duran, Jr., has joined Hallcrafters Co. of Rolling Meadows, Ill., as manager of military communications marketing. He, his wife, and three children are living in Arlington Heights, Ill.

Earl M. Lancaster is president-

GYMNASTICS TEAM—Now in its fourth season at Auburn gymnastics is still a young sport on the Auburn campus, but Coach Ed Bengtson and his squad have managed to win two Southeastern A.A.U. Senior Men's Championships in the past three years and have high hopes for the future. Senior Aubrey Bowles, one of the South's finest all-around gymnasts leads the 67-68 team. The gymnasts are, bottom row, left to right, Rex Little, Lee Beals, Aubrey Bowles, Ron Phelps; middle row, Coach Bengtson, Tom Callahan, Leo Tucker, Ed Blocker, Warren Bacon; top row, Mike Griswold, Steve Sheffield, Greg Spzak, and Butch Oggs.

Niarhos To Pilot Birmingham A's

(Condensed from a story by Bill Lumpkin, Birmingham Post-Herald Sports Editor.)

For the first time since 1941, Gus Niarhos will be back in Birmingham baseball this spring. He returns home as manager of the Birmingham Athletics of the Southern League.

A graduate of West End High School, Gus attended Auburn before signing a professional contract as a catcher with the New York Yankees. He played with Akron of the Middle Atlantic League, Binghamton of the Eastern League and Kansas City of the American Association before changing to the Yankees and the American League in 1946.

elect of the Auburn Kiwanis Club.

Cmdr. Bryan W. Compton, a Navy pilot who led one of the heaviest attacks of the air war over North Vietnam, has received the Navy Cross in a ceremony aboard the attack aircraft carrier, the USS **Oriskany** in the South China Sea. The Cross was presented to Cdm. Compton for leading a strike against a terminal power plant in the North Vietnamese capital city of Hanoi. A veteran of more than 170 combat missions, Cdm. Compton received the Distinguished Flying Cross for heroism last year. The commander's wife Mary and their four children: Bryan, 10; Marty Catherine, 8; David, 6; and Ann, 3; live in Lemoore, Calif.

BORN: A daughter, Mary Lea, to Mr. and Mrs. **F. Woods Whatley** (Mary Samford '59) of Atlanta on Jan. 3.

He spent eight years in the major leagues with five different clubs—Yankees, Kansas City, Chicago White Sox, Boston Red Sox, and the Philadelphia Phillies. His playing career ended at Tulsa of the Texas League in 1958. He was out of baseball from 1958-61 returning in 1962 to join the coaching staff of Hank Bauer at Kansas City. He began managing in 1964 and that year his Wytheville, Va., team ranked second in the Appalachian All-Rookie League. He directed Burlington of the Eastern League to first and second half pennants the next year and was named manager of the year in the California League after his Modesto won the pennant in 1966.

'51 John T. (Jack) Hartley has been promoted to vice president-general manager of the systems division of Radiation, Inc., of Melbourne, Fla. He was formerly vice president-general manager of the micro-electronic division, which he had headed since 1964. Mr. Hartley holds Auburn degrees in chemistry and electrical engineering. He and his wife Martha and their children, John, 12, William, 4, and Melissa, 4, live in Indianatlantic.

Henry M. Poulsen has been transferred to Shreveport, La., with Western Electric.

Robert T. Fitzgerald was recently promoted to lieutenant colonel at Lackland AFB, Tex. He is assistant chief of staff at Wilford Hall Hospital.

Russell Estill is pastor of the First Baptist Church of Ashville.

Dr. Bailey L. Donnally, professor of physics at Lake Forest College, presented the lead-off

Holdsambeck

Freeman

Col. **Herbert S. Holdsambeck** '47 has been appointed Commander of the 6555th Aerospace Test Wing at Patrick AFB, Fla. The wing is a unit of the Space and Missile Systems Organization, Air Force Systems Command, and is responsible for the launch, test and evaluation of all Air Force ballistic missiles and space vehicles at the Air Force Eastern Test Range. Col. Holdsambeck's prior assignment was with the Foreign Technology Division as Director of the Space Systems Directorate and subsequently as Director of the Ballistic Missiles Directorate. He holds the Distinguished Flying Cross, the Air Medal with three Oak Leaf Clusters, and the Air Force Commendation Medal. He and his wife Mary have four children: Kirk, 17; Kathy, 16; Robert, 14; and Steven, 10.

James S. Freeman '48 is new director of public relations for Union Carbide Corp. Mr. Freeman joined Union Carbide in 1949 in the industrial relations department. He became a vice president of the former chemicals division in 1966 and of the newly-formed Chemicals and Plastics Operations Division in 1967.

American Association of Physics Teachers in Chicago Jan. 29-Feb. 1.

Aaron Greene of Birmingham, formerly of Lanett, is the new president of the Alabama State Board of Pharmacy.

Ray Helms, Jr., raw materials sales representative for U.S. Steel Corp. in Montgomery, has been elected president of the Alabama Soil Fertility Society. He is a former associate county agent in Montgomery County. He joined U.S. Steel in 1964.

'52 After retiring from the Air Force **Wayne E. Scrivener** is with Grumann Aircraft Engineering Corp. in Bethpage, L.I., New York, as material training administrator. He and his wife Helen and their three children make their home in North Haven, Conn. His son Michele is in high school; William is a junior at Lehigh University, and Helen, Jr., a freshman at Upsala College.

Tom Page is head football coach at Sam Houston State College in Huntsville, Tex.

Maj. **Gene E. Carroll** has received the Air Medal at Ching Chuan Kang AB, Taiwan, for outstanding airmanship and courage in Southeast Asia. Maj. Carroll is a C-130 Hercules aircraft commander.

John H. Schuler, president of Anderson Electric Corp. in Birmingham has been elected a director of the First National Bank of Birmingham.

Maj. **Turnage R. Lindsey** and his family are in Houston, Tex., where he is connected with the Space Center. Maj. Lindsey recently returned from Thailand where he flew 100 missions over Vietnam.

Harry C. Handlin has been transferred from Jacksonville, Fla., to Birmingham as Alabama manager for Lincoln Electric Co. He and his wife Betty Jo have two children, Harry and Jayne Stewart.

For Career In Tennessee Agriculture—

Jerdan '13 Earns "Mr. Co-op" Title

Around the turn of the century, American workers in the North, East, and West stirred up a widespread controversy when they began banding together to accomplish jointly what they could not do alone. Down in rural Tennessee 20 years later, the Extension Service was just getting a foothold when a young Alabamian joined the Service and stirred up organizational controversy in the South. The young man knew that the best kind of help is self-help, and he wanted to help the farmer help himself. But he also knew that when a man has done all he can alone, he must ask his neighbors for help. Al Jerdan '13 felt that the Tennessee farmers could best help themselves by forming cooperatives and pooling their strengths, resources, and management ability to better their own lives and their services to others. Few Tennesseans agreed with him. Many, including the conservative farmers, still believed it was downright sinful for farmers to organize, and many other people, because of their vested interest or for political expediency, fought him and his farmer projects every step of the way.

Forming successful cooperatives for Tennessee farmers was a hard job, but Mr. Al, as he is known across Tennessee, thrives on challenge. Blessed with an articulate tongue, Mr. Al does a good job of persuading others, and then backs up what he has promoted vocally with hard work. When he wanted to come to Auburn, college officials refused to admit him because he lacked the proper qualifications. However, Mr. Al persuaded them to give him three months to show them if he could do college work. He could. At the end of his freshman year he received a special certificate for achievement, and three years later he possessed an Auburn degree. He then obtained another bachelor's from the University of Missouri, and a master's from the University of Illinois.

When Mr. Al arrived in Tennessee he had a background of Extension work in North Carolina, Army service in France and Germany, and a year's teaching experience at the College of Agriculture of the A.E.F. University in Beuane, France, following the war. He started out slowly and deliberately to build farmer-controlled organizations in Tennessee — organizations backed with sound financing and adhering to basic cooperative principles. As an Extension worker he had to help incorporate any co-operative group who requested his help (he wrote charters for more than 200), but he never incorporated one without volumes

of advice and the prophecy that they would fail unless they followed sound economic principles. Dozens of early Tennessee cooperatives ignored his advice and failed. But the Tennessee Farmers Cooperative (TFC) is perhaps the best example of Mr. Al's work, determination, and philosophy. He guided the TFC in his career as Extension specialist and ultimately joined the organization following his retirement from the Extension Service in 1956. As Mr. Al had insisted again and again that cooperatives have educated and informed directors and managers, his natural position was education director for the Tennessee Co-op. There, for the past years, he has continued to preach hard work, sound economics, and education.

In September, the TFC honored Mr. Al by dedicating the annual meeting and annual report to him. At the meeting he unveiled a portrait of Mr. Al and presented a silver punch server to him and Mrs. Jerdan. Mr. Jerdan worked with the University of Tennessee for many years before becoming secretary of William E. Miller, chief judge of the U.S. District Court for the Middle District of Tennessee in Nashville in 1960. The Jerdans make their home on Baxter Lane in Brentwood.

'53 Mrs. **Ann Ballard Harmon** resigned as dean of women at Troy State College to join the State Department of Education on Jan. 1. Mrs. Harmon holds an M.S. in guidance from Auburn and organized the guidance program in Elmore County Schools during her 18 years with the County system prior to going to Troy.

Dr. **J. Brannen Murphy** of Altamonte Springs, Fla., is the president-elect of the Florida State Veterinary Medical Association.

Mrs. **Norma Jacqueline Smitherman Bice** of Andalusia has been selected to appear in the 1967 edition of "Outstanding Young Women of America." Mrs. Bice is the wife of **Winston Bice** '60. She directs the Addie Belle Guy Kindergarten, a school sponsored by the First Methodist Church of Andalusia.

BORN: A son, William Ripley, to Mr. and Mrs. Richard Griffith (Jane Webb) of Anchorage, Alaska.

'54 Maj. **Gaston O. Bush** has received the Air Medal at Tan Son Nhut AB, Vietnam. A T-39 Sabre-liner pilot, he was decorated for meritorious achievement on successful and important missions as a member of the Pacific Air Forces in Southeast Asia.

Roy Ledbetter has been tapped for membership in Phi Kappa Phi by the Mississippi State University Chapter, where he recently received the doctorate.

Maj. **Leo M. Headley, Jr.**, has received the Air Medal at Cam Rahn Bay AB, Vietnam, for action in Southeast Asia. He is an F-4C Phantom II aircraft commander.

Mrs. **Hazel Lewis** is now director of instruction for Crisp County Schools in Cordele, Ga. She has served as a director of the Georgia Education Association, as vice president and president of the state association and is now a member of the board of trustees.

Capt. **Robert D. McGuire** is currently serving in Vietnam.

BORN: A son, Jonathan Andrew, to Dr. and Mrs. **Roger Swingle** (Gwendolyn Sue Carter '53) of Athens, Ga., on Dec. 13.

'55 **John Logue** of Birmingham is features editor of **Southern Living** magazine.

Austin Lowrey has received one of the five top Merit Awards at the 22nd Southeastern Annual Art Show at Atlanta's High Museum. The award was for his painting "Red and Blue." Mr. Lowrey worked for several years in Birmingham as a designer and now teaches layout and graphic design at the University of Georgia.

Alumni In The News

Galloway

Lyons

J. B. Galloway '48 has been promoted to aerospace director of Anti-Ballistic Missile Program and Aerospace Director of Research and Engineering at Thiokol Chemical's Huntsville Division. He was previously director of operations. Before joining Thiokol in 1958, Mr. Galloway was project leader at the Army Rocket and Guided Missile Agency for Nike Ajax Booster programs. His last assignment with the government was as chief of the missile branch of the Nike Zeus Project. After joining Thiokol, he worked as project manager for all Falcon and Pershing projects, and served as director of project management, director of research and engineering, technical director, and plant manager while the Huntsville Plant was a part of Thiokol's Alpha Division.

John H. Lyons '49 has been named assistant manager of WestPoint-Pepperell's Lanier Mill. He was formerly senior industrial engineer with the Apparel Fabrics Division, working at the Lanier Mill since December 1966 as director of the mill's training program. He, wife Janelle, and their four children—Steven Bartley, 18; John Thomas, 15; John, III, 12; and Suzy Janette, 9—live in Langdale.

NEWS OF AUBURN CLUBS

JEFFERSON COUNTY AUBURN CLUB members set a record Dec. 6 when they presented 21 watches to Auburn senior football players. Honoring the seniors with watches is an annual affair for the Jefferson Club. They also presented radios to six five-year players. Principal speaker at the meeting was Harry Mehre, former Georgia and Ole Miss coach. Also on the program were Auburn President Harry M. Philpott, Coach Shug Jordan, and Athletic Director Jeff Beard.

New officers for the Jefferson County Club are: Earl S. Morgan '55, president; Versal Spalding, Jr., '48, vice president; James M. Brown, Jr., '46, secretary; and P. Kess Fabian '59, treasurer. The executive committee includes A. L. Thomasino '61, Charles R. Crowder '54, Ruel Russell, Jr., '48, M. D. Johnson '26, Ernie Warren '56, William H. Eiland '47, E. N. Conaway (friend), Jack Fox '38, James Jeffrey '60, and Perry B. Pepper '32.

In December the **MOBILE AUBURN CLUB** published the second edition of their newsletter, *Tiger Tales*, edited by Tyler Turner, Jr., '63. The very active Auburn group will hold their annual spring dinner meeting on March 20. Their new officers are: William C. Regan '57, president; Norville L. Smith '59, 1st vice president; Tyler Turner, Jr., '63, 2nd vice president; Peter M. Ken-

yon '60, 3rd vice president; Harry E. Myers '32, secretary; and Arthur Leiser, Jr., '55, treasurer.

On Jan. 10 the **MARENGO COUNTY AUBURN CLUB** met in Demopolis to hear Dr. Harry M. Philpott as dinner speaker. Outgoing president Charles B. Grant '45 presided as the club elected the following new officers: Albert G. Westbrook '51, president; Bracey C. Hill '39, vice president; and Clarence W. Horton '48 secretary-treasurer.

Alumni in the **NEW ORLEANS AREA** held their annual business meeting and election on Dec. 13. Officers for 1968 are: James M. McGowen '49, president; James W. Mills '49, first vice president; J. Cecil Stallings '49, second vice president and Mrs. Joseph Pitts (Gretchen Bomboy) '52, secretary-treasurer.

SPACEPORT (Cape Kennedy, Fla., Area) War Eagles turned out recently to hear Coach Ralph Jordan speak at the Patrick AFB, Officers Club. B. J. Dryer '46, club president, presided at the meeting.

UPCOMING MEETINGS—The **CHARLESTON, S.C.**, Alumni Club will meet Mar. 12. Local alumni will receive further details. . . **RICHMOND, Va.**, CLUB is organizing and will hold its first meeting on Mar. 14. Area alumni will be mailed further details.

Charles W. Wilson is a supervising civil engineer with the Naval Facilities Engineering Command OICC Thailand in Bangkok, Thailand.

Scott Vowell has been elected president of the Young Lawyers section of the Birmingham Bar Association. He has been practicing law in Birmingham since

Manpower Training Leader—

Donna Seay Holds Three Offices

Three national honors recently came to Mrs. Donna Sims Seay '46 of Montgomery, assistant director of the Rehabilitation Research Foundation. In this capacity she serves as program director of the Foundation's experimental-demonstration manpower development and training project at Draper Correctional Center in Elmore. Her three honors are election to a three-year term as vice-president of the new and related services division of the American Vocational Association (AVA); re-election to the presidency of the National Manpower Training Association; and appointment to the Southeastern Manpower Advisory Committee.

The AVA promotes the continuing growth and development of quality programs in vocational education. Mrs. Seay repre-

sents AVA in the areas of manpower training, technical education, research, and guidance.

As president of the National Manpower Training Association, Mrs. Seay heads a new organization which supports quality manpower training programs for youth and adults. Under Mrs. Seay's leadership the association, in the one year of its existence, has grown to more than 500 members from 37 states.

Secretary of Labor Willard Wirtz appointed Mrs. Seay to the Southeastern Manpower Advisory Committee, composed of leaders in business, industry, education,

and Labor unions. The committee advises the president and cabinet as they formulate policies to meet the manpower needs of the nation.

Mrs. Seay holds a master's trade and industrial education with a minor in guidance from the University of Alabama. She co-ordinated the distributive education program for Sidney Lanier High in Montgomery for nine years and has directed Draper Manpower Project for past three years. She is married to Montgomery architect Jim Seay '47. They have three children: Donna Marie, a sophomore at Auburn; Jimmy, a junior at Auburn; and Durrell, a student at Cloverdale Junior High.

1961 where he is with the firm of Beddow, Embry and Beddow.

Tom E. Hunt has transferred to the Birmingham division of Alabama Power Co. as rural service engineer.

L. L. Wetzel has been promoted to bulk power planning engineer for Southern Services, Inc. of Birmingham. Mr. Wetzel joined Southern Services in 1956 and has served in various engineering capacities. He is a member of the Institute of Electrical and Electronic Engineers.

MARRIED: Carol Jean von Brunn to Aubrey Alfred Miller, Jr., on Nov. 11 in St. Louis, Mo.

'60 Charles D. Stewart is doing graduate work at Auburn and teaching in the Engineering Graphics Department.

Capt. Kenson R. Vance, Jr., helped the 3rd Aerospace Rescue and Recovery Group in Southeast Asia win the U.S. Air Force Outstanding Unit Award. Capt. Vance is assigned to Tachikawa AB, Japan, as an HC-130 Hercules pilot.

Capt. Kurt L. Keene is assigned as a guided missile systems officer with the Headquarters of the Army Air Defense Command at Ent AFB, Colo.

Capt. Theron J. May, an HH-43 Huskie helicopter pilot, is on duty in Vietnam.

Gus S. Coats of Plainfield, N.J., has been named project design engineer of the pulp and paper division of Chemico. He and his wife have two children.

Chuck Dunseth has won one of five top awards of the 22nd Southeastern Annual Art Show at Atlanta's High Museum with his sculpture, "D." The work took the \$1,000 High Museum purchase award. Mr. Dunseth is an architect in Atlanta.

Luther E. Oswalt was promoted to major in the Army at Auburn on Jan. 2 where he is stationed as an Army ROTC instructor. He will leave Auburn shortly for a Vietnam assignment. Maj. Oswalt and his wife Bonita have a daughter, Jane Leigh, 5.

James C. Adams has been promoted to major with the IV Army Corps. Mrs. Adams is Jane White '62.

BORN: A daughter, Gena Lynn, to Mr. and Mrs. Warren Eugene Norris of Millbrook on Oct. 26. . . . A daughter, Kerri Ann, to Mr. and Mrs. Luther Kirkley, Jr., (Ann Ford) of Auburn on Nov. 7. . . . A son, Wal-

lace Drake, to Mr. and Mrs. Richard T. Moreman of Opelika on Dec. 19. . . . A son, Thomas Craig, to Mr. and Mrs. Stuart Whatley (Mary Celia Jones '58) of Montgomery on Dec. 10. . . .

A daughter, Kari Rae, to Mr. and Mrs. Ira Weissinger, Jr., (Ila Rae Tallakson '66) of Opelika on Dec. 25. . . . Twin daughters, Cathryn Marie and Sharyn Elaine, to Dr. and Mrs. James T. Stewart of Athens, Ga., on Dec. 27. Dr. Stewart is associate professor in the School of Pharmacy at the University of Georgia. . . .

A son, Steven Hobart, to Mr. and Mrs. Jack D. Mathews (Barbara Hobart '61) of Jupiter, Fla., on Jan. 3. He joins big brother Scott, age 4. Jack is a senior design engineer with Pratt Whitney Aircraft in West Palm Beach.

'61 Henry L. Dowling now lives in Ozark where he is employed with the government at Ft. Rucker.

Philip Alston Glenn has been elected assistant cashier at the Citizens & Southern National Bank in Atlanta. He joined C & S in Valdosta in 1962, became assistant to the president of the Bank of Tifton in 1965, and on Dec. 1 transferred to the C & S Bank in Atlanta.

Capt. Tom V. Purser has graduated with honors from the Air University's Squadron Officer School at Maxwell AFB, Ala. He is reassigned to Ent AFB, Colo., as an aerospace facilities engineer.

Capt. Charles J. Lovvorn, an Air Force pilot in Vietnam, had a close call in November when his plane was shot down in the Mekong Delta. Enemy fire chased off the first helicopter attempt to rescue Capt. Lovvorn and his co-pilot, but they were rescued by a second chopper.

Thomas J. Brantley has transferred to Bethesda, Md., with the Federal Systems Marketing Operation of the General Electric computer department.

Mr. and Mrs. Robert D. Armstrong (Barbara Greene '65) live in Mobile where he is an industrial engineer with Continental Motors Corp.

The Rev. Douglas Wasson has been installed as governor elect of the five-state Rocky Mountain district of Kiwanis International. A former member of the Kiwanis Club of Auburn, he was advisor for the Circle K Club of Auburn University which won the achievement for Circle K International

in 1960. He is minister of First Congregational United Church of Christ in Rock Springs, Wyo. Mrs. Wasson (Peacock '54) teaches senior English at Rock Springs High.

Capt. Robert W. Brown received the Vietnamese Armed Forces Honor Medal First Class at Ft. Campbell, Ky., on Dec. 1. The award is given to persons who have contributed significantly to the training and development of the Vietnamese Armed Forces. Capt. Brown is now executive officer of the 10th Battalion of the Army Training Center's 2nd Brigade.

Gene Reynolds is a senior research analyst for RMC, Inc., Bethesda, Md. He, his wife Gayle, and two children, Bill, and Kimberly, 3, live in Rockville, Md.

David K. Price has been promoted to lieutenant. He is now stationed in Pasadena, Calif.

Capt. Bennie Max Richards is stationed at Amarillo AFB, Tex.

Mr. and Mrs. Eddie L. Pittman (Marybeth Coker '62) and son Ty, have recently moved to Detroit, where he has been promoted to regional sales manager for Southern Wood Preserving Co.

BORN: A daughter, Carole Annette, to Mr. and Mrs. Edd B. Lingsley (Barbara Annette) Birmingham on Dec. 5. She joins big sister Laurel, 4½. . . . A daughter, Angela DuBose, to Mr. and Mrs. Kendall W. Hill (Nie-laia Mitsiani) on Nov. 5. She joins big sister Alice Marie, 3. In December the Hills moved to Pittsburgh where Mr. Hill is with the Westinghouse Bettic Atom Laboratory. . . .

A son, James Douglas, II, Mr. and Mrs. James D. Flanagan (Mary Louise Wild) of Montgomery on Nov. 29. . . . A daughter, Jill Irene, to Mr. and Mrs. James Jamieson (Frances Cox) of Prairie Village, Kan., on Oct. 18. . . . A son, William Edward, to Mr. and Mrs. Neil Wayne Chase Woodland on Oct. 30. . . .

A son, Thomas Dickens, to Mr. and Mrs. Harry Robert Slagter, Jr., of Birmingham on Jan. 1. Big brothers are Kyle and Harry III.

Mr. and Mrs. George '62 Frizzell (Barbara Thomas) are enrolled in the University of Florida's Graduate School Business Administration Gainesville.

(Continued on next page)
